Pre-K-12 Continuous Improvement Framework

A Guide for School Division Strategic Planning
Version IV
November, 2011

Saskatchewan Ministry of Education
Pre-K-12 Continuous Improvement Framework

This Guide to the Pre-K-12 Continuous Improvement Framework is intended to assist school division boards (divisions) in an annual cycle of strategic planning, monitoring and public reporting on the use of resources, strategic practices and the progress in improving the achievement outcomes of all Saskatchewan’s students.

Acknowledgements

The following partners worked collaboratively with the Ministry in formulating the CIF:

- Saskatchewan Teachers’ Federation (STF)
- Saskatchewan School Boards Association (SSBA)
- Saskatchewan Association of School Business Officials (SASBO)
- League of Educational Administrators, Directors and Superintendents (LEADS)
- Federation of Saskatchewan Indian Nations (FSIN)
- Saskatchewan Association of School Councils (SASC)
- First Nations and Métis Education Provincial Advisory Committee (FNME-PAC) formerly (AEPAC)
- University of Saskatchewan
- University of Regina
- Prairie Spirit School Division
- Northern Lights School Division
- Regina Catholic School Division
- Saskatoon Public School Division

The following acronyms are used in this document:

AC – Accountability Conference
CI – Continuous Improvement
CIF – Continuous Improvement Framework
CIP – Continuous Improvement Plan
CIR – Continuous Improvement Report
LIP – Learning Improvement Plan
FNMEP – First Nations and Métis Education Plan
FNMEAF – First Nations and Métis Education Accountability Fund
SCC – School Community Council
SSS – Student Support Services

If you have questions or comments regarding the Continuous Improvement Framework and Guide, please contact the Assessment and Accountability, Assessment Unit at (306) 787-2363.

Continuous Improvement Framework

Purpose

The purpose of the Ministry of Education’s (Ministry’s) Continuous Improvement Framework (CIF) is to improve the achievement of all students and to remove the gaps for First Nations and Métis students. The framework was developed in collaboration with education partners in 2005 and first introduced to all Saskatchewan divisions in March 2006.

The CIF is the accountability framework for Saskatchewan’s education sector. The framework supports the alignment of division and school operations with the ministry’s priority to improve the achievement of all students. The CIF provides direction to divisions for planning, monitoring and public reporting on the use of resources, strategic practices to support the ministry’s priority.

Pre-K -12 Provincial Priorities

The CIF is organized around the ministry’s four provincial priorities:

- Higher Literacy and Achievement;
- Equitable Opportunities;
- Smooth Transitions; and
- System Accountability and Governance.

The extent to which these priorities converge indicates a clear division focus on student achievement and growth. Building a culture that provides success for all students is a shared mandate.
Roles and Responsibilities

The CIF is a critical initiative for both the Ministry and divisions in improving student achievement and removing the gaps for First Nations and Métis students. It clarifies roles and responsibilities by assisting:

- boards of education, directors, school staffs, and school community council members in establishing, coordinating, and monitoring division and school priorities to improve student achievement;
- boards of education, directors, school staffs, and school community council members in developing strong partnerships with First Nations and Métis organizations and communities;
- teachers and school administrators in guiding improvements in instructional practice, staff development, and school operations;
- parents, students, and community in better understanding school and division operations and participate in the improvement process;
- Ministry officials in providing focused policy direction and support.

The CIF acknowledges that significant improvement, at both the provincial and local level, requires a long-term commitment and appropriate resources for system operations and the teaching-learning environment.

Principles

The principles that must guide this process of discovery, renewal and improvement are based on commonly held beliefs and practices that have
Pre-K-12 Continuous Improvement Framework

guided the Pre-K-12 system through many initiatives in the past. These principles are consistent with those outlined in the *Good Practices and Dispute Resolution Report*.

1. **Because we believe in quality and excellence**, we are committed to the identification, gathering, analysis, and communication of information to enable growth of quality and excellence in our education system.

2. **Because we believe in shared responsibility**, we are committed to collaborating in the planning, monitoring, and reporting process and sharing responsibility for student learning.

3. **Because we believe in openness and honesty**, we are committed to open and transparent practices that honestly portray strengths and weaknesses in the system.

4. **Because we believe in equity and fairness**, we are committed to being sensitive and respectful to socio-demographic differences such as culture, gender, economic status, and geographic location.

5. **Because we believe in comprehensiveness**, we are committed to a holistic and balanced picture of system planning and performance.

6. **Because we believe in informed decision making**, we are committed to research-based approaches to guide practices.

7. **Because we believe in authenticity and validity**, we are committed to the gathering of qualitative and quantitative data to support decisions to enhance learning.

8. **Because we believe in teacher professionalism**, we are committed to recognizing and encouraging self evaluation, reflective practice, and innovation as critical components of professional practice and accountability.

9. **Because we believe in appropriate resources and staff development**, we are committed to providing appropriate human and material resources and timely staff development to ensure that improvement activities can positively affect student learning.

10. **Because we believe in long-term planning for improved learner outcomes**, we are committed to improvement initiatives that are part of long term plans based on system needs to improve student learning.

11. **Because we believe in parental and community engagement**, we are committed to supporting the involvement of parents and community as partners in educational decision making.
Continuous Improvement Planning and Reporting Cycle

Components

The CIF requires division leadership for multi-year strategic planning, monitoring and public reporting on the achievement of outcomes. The CIF aligns provincial, division, school and classroom actions with the four provincial priorities. The Provincial Core Indicators and Accountability Conferences are integral to the CIF planning, monitoring and reporting cycle.

Planning

The CIF requires that boards of education prepare, approve and publish on their division website a comprehensive multi-year Continuous Improvement Plan (CIP) focused on improving student achievement and removing gaps for First Nations and Métis (FN&M) students. This multi-year plan, organized around the four provincial priorities provides division context and summarizes SMART goals, strategies, resource allocation, and expected outcomes. The plan also includes specific strategies to remove achievement gaps for First Nations and Métis students as well as projects funded through the First Nations and Métis Education Accountability Fund (FNMEAF). The CIP is dynamic and it is assumed that the school division will make annual adjustments but not significantly change priorities and goals during the life of the plan.

Reporting

The CIF requires boards of education to annually report on the achievement of expected outcomes identified in their multiyear CIP. Divisions’ First Nations and Métis Education Plan must be attached and results of projects awarded through the First Nations and Métis Education Achievement Fund (FNMEAF) are to be included.
Provincial Core Indicators

A set of Provincial Core Indicators assists divisions with their annual CI planning, reporting, and conferencing (Appendix F). These indicators draw information from provincial databases and include indicators for sub-populations including First Nations and Métis students. Divisions can use this data to compare their performance over time and to provincial results.

Accountability Conferences

Accountability Conferences between the Ministry and divisions complement the annual planning and reporting cycle. These conferences are scheduled following the board approval of the CIP. They provide an opportunity for divisions to share with the ministry a brief report on the achievement of outcomes specific to the goals identified in their previous year's CIP. As well, they require divisions to speak to adjustment to their CIP for the upcoming year made as a result of reflection on the reported data.

Diagram 2 displays the planning and reporting cycle. While the goals of a division's multi-year CIP will be consistent over this time period, some strategies may evolve as a result of new information.

Diagram 2: Planning and Reporting Cycle
Format for Planning and Reporting

Multi-year Continuous Improvement Plan (CIP)

Boards of Education are to prepare, approve and publish on the division website a multi-year CIP. While plans may vary, all must include four sections: Appendix B provides a template to assist in formatting a CIP.

Section 1 - Context of the School Division:
School division context enables divisions to explain the circumstances in which the plan is being implemented. Elements included are the division’s governance structure, mission, vision and goals, boundaries and schools, disaggregated demographics, and the programs and services provided.

Section 2 - Division Priorities and Strategies:
This section summarizes the SMART goals, strategies, resource allocation, and expected outcomes organized around the Pre-K-12 Provincial Priorities. It also identifies the formative and summative measures that will be used to track progress over time. As well, this section will include specific improvement strategies to remove achievement gaps for First Nations and Métis students as well as identify projects funded through the First Nations and Métis Education Accountability Fund (FNMEAF). School divisions may identify local priorities.

Section 3 - Division Financial Planning:
This section contains a summary of expenditures in support of the CIP’s strategic direction.

Section 4 - Communication Plan:
This section will provide a summary of how the division plans to communicate the results of the CIR to the community. A variety of formats and media should be used as appropriate. As well, it will include the Board office contact information and the web site location for the CIP and location where a full set of financial statements, public accounts, and detailed information can be accessed.
The Continuous Improvement Self-Reflection Rubric (Appendix C) provides direction and assistance to divisions to determine the extent to which they are progressing in developing their CIP.

Continuous Improvement Report (CIR)

Boards of Education are to prepare, approve and publish on the division website an annual CIR. The CIR presents evidence of progress in meeting expected outcomes and provides direction for subsequent plans.

The initial multi-year CIP is the foundation for the initial CIR. In subsequent years, divisions are expected to report yearly progress and indicate the adjustments made to their plan as a result of reflecting on their progress in achieving expected outcomes. This process of reflection and adjustment is expected to continue over the life of CIP.

The Accountability Conference Reporting Templates (Appendix D) is to be completed for purposes of CIF reporting. The template provides divisions with an opportunity to briefly report progress related to expected outcomes in the areas of Literacy, Numeracy, Student Support Services and First Nations and Métis students outcomes. It also requires divisions to identify adjustments to the plan and additional information related to advancing improved outcomes for all students.

The CIR provides the focus for discussion at annual Accountability Conferences.

The Learning Improvement Plan (LIP)

The LIP is a school-level planning document that follows the format of the division CIP. The LIP is an important component of the Continuous Improvement Framework and has been designed as a support for schools in their strategic planning for improvement. The goals in the LIP should align with the division CIP and provincial priorities. The LIP should be developed collaboratively by the Principal, school staff and the School Community Council (SCC). See Appendix E for a LIP template.

It is the responsibility of the school division to outline timelines for schools in local improvement planning. The LIP should be submitted for approval at the board level in September of each year, as outlined in Policy Directions for School Community Councils.

The plan and resulting accomplishments are to be communicated in appropriate ways on an annual basis to the local school community. This may involve a range of approaches: newsletters, parent nights, or regular council meetings.
Multi-year LIPs are also recommended. Schools should reflect on accomplishments on a yearly basis and adjust their LIP accordingly.

The Ministry does not require School Community Councils to produce a formal report. Rather, the resulting accomplishments are to be communicated in appropriate ways on an annual basis to the local school community. School divisions are responsible for establishing reporting requirements with schools and school community councils.

Additional information pertaining to the roles and functions of SCCs can be found in *Policy Directions for School Community Councils* (http://www.education.gov.sk.ca/scc).

E. Learning Improvement Plan Template
F. Provincial Core Indicators
Appendix A
Glossary of Terminology

**Accountability:** The act of being responsible for assigned responsibilities. This includes, but is not limited to the use of funds, results achieved, planning for continuous improvement and achieving desired results.

**Action Plan:** This is a detailed account of the strategies used to carry out an initiative, process or goal.

**Appreciative Inquiry:** A theory and practice for approaching change from a holistic framework. Based on the belief that human systems are made and imagined by those who live and work within them.

**Assessment for Learning (AFL):** Using assessment data to continuously improve instructional practice. *Assessment for learning* extends beyond the collection of data and reporting of results as the key outcomes of the assessment. It emphasizes preparing and engaging participants well before the data collection process. It also stresses the reflection, discussion; planning, action research, and monitoring that are desirable following the reporting event.

**Baseline data:** A set of data used as a starting point to measure changes over time using the same methodology. Baseline data should be used to develop performance targets.

**Continuous Improvement Framework (CIF):** An annual strategic planning and reporting process that identifies and aligns school division priorities with appropriate strategies, operational supports and outcome measures.

**Core Indicators:** The set of measures used to track and measure the success of a program or initiative in meeting the desired outcomes. These indicators have been selected by the Ministry in consultation with its partners.

**Data:** Information collected through a systematic method (quantitatively or qualitatively) which is used as evidence for tracking progress.

**Data Analysis:** The process of making sense of the data by looking for trends and relationships among variables.

**Division Goal:** A broad improvement statement that aligns with provincial or local priorities.

**Firsts Nations and Métis Education:** Plans for FN&ME are guided by the *Inspiring Success: Building Towards Student Achievement* policy framework for First Nations and Métis learners. *Inspiring Success* aligns with the CIF and provides divisions with direction for developing action plans to improve First Nation and Métis student outcomes. The four goals of this policy framework are: 1) Equitable outcomes for First Nations and Métis learners. 2) All learners to have knowledge and appreciation of the
unique contributions of First Nations and Métis peoples to Saskatchewan. 3) Data collection and reporting on measures outlined in the Ministry’s *First Nations and Métis Education Policy Framework* that demonstrate accountability towards improved educational outcomes. 4) Shared management of the provincial education system by promoting and sustaining partnerships with First Nations and Métis peoples at the provincial and local level.

**First Nations and Métis Education Initiative Funds:** Initiative Funds strengthen the capacity of school divisions to conduct research, and develop First Nations and Métis education plans that support equitable outcomes for First Nations and Métis students, and provide *all* students within the provincial education system with the knowledge of the unique contributions of First Nations and Métis peoples to Saskatchewan.

**First Nations and Métis Shared Decision Making:** Involvement of First Nations and Métis partners (community, schools, tribal councils) in collaborative, respectful decision making processes.

**Goals:** Goals are broad, long term statements that guide organizations in the direction of realizing their vision.

**Indicator:** A specific item of information that can be used to track and measure the success of a program or initiative in meeting desired outcomes. Indicators are observable or measurable.

**Inputs:** The resources (human, financial, program, professional development) devoted to a particular initiative, program, or policy.

**Mission Statement:** A clear, concise description of an organization’s overall purpose and role. It gives direction to the programs and services that the division provides for its students.

**Objective(s):** A specific statement that precisely identifies the area of improvement given in the division goal statement.

**Outcomes:** The results achieved through the impact of an initiative, program, or policy.

**Performance Indicators and Baseline Data:** The specific measures that will be used to track and measure the success of the strategies in the division's plan. The baseline refers to the starting point of the specific indicator(s) that will be used to measure changes over time.

**Performance Targets:** Targets define desired levels of performance to be attained by a certain time. Targets are always expressed quantitatively, and with a timeline.

**Principles and Beliefs:** Principles and beliefs inform decision-making and provide a foundation for developing mission, vision, and goals.
Profile: A collection of data compiled to provide a description of the school division that gives context to the CIP. Profiles include characteristics of communities, students, programs, and location.

Provincial Priority Areas: Four overarching and enduring provincial commitments for continuous improvement:

- **Higher Levels of Literacy and Achievement** – The expectation that student learning will improve in a broad range of studies, commensurate with ability.
- **Equitable Opportunities** - The expectation that all students will have equity of opportunity and benefit according to individual aptitudes, abilities, and interests, regardless of their personal or locational circumstances.
- **Smooth Transitions** - The expectation that student movement will be supported into, through, and from high school to post-secondary education or the workforce.
- **Accountability and Governance** – The expectation that school division operations will be transparent, effective, and fiscally responsible in support of improved student outcomes.

Qualitative Data: Information in descriptive terms (not numerical) used to develop trends and relationships among variables.

Quantitative Data: Information in numerical terms used to describe trends and relationships among variables.

Rationale: The reasoning or principles that explain why the division has selected a particular goal. School divisions should be able to provide a rationale to justify decisions made in their CIP and CIR.

Reporting: The process of clearly communicating the information collected during the planning and monitoring process. Reports have a specific audience, are transmitted at a particular time, and make provision for feedback.

School Division Governance: The process of how decisions are made in publically funded schools as defined by legislative authority and duties. Effective governance, within the context of accountability, consists of **Leadership** – setting a progressive direction for the school system; **Stewardship** – overseeing the successful operations of the school system; and, **Relationship** – empowering staffing and creating connections with all who have a stake in effective education for the well-being of children and youth.

SMART Goals: Goals that are specific, measurable, achievable, relevant, and time related.

Strategies: Strategies are specific actions that school divisions and schools take to achieve goals and desired outcomes for their students.

Summary of Progress: This is an explanation of how implementation of the continuous improvement plan affected the original baseline data.
**Trend:** A trend shows a direction of data over time (e.g., enrolment growth). A trend consists of a minimum of three data points.

**Vision:** A vision describes a possible and desired future state for the organization, grounded in reality, which inspires and guides decisions and actions.

Appendix D
Saskatchewan Ministry of Education
Accountability Conference
2011-2012

The four Provincial Priorities are related and integral. The extent to which they converge indicates clear division focus on student achievement. Building a culture that provides success for all students is our shared mandate.
### Results of 2010-2011 CIF Plan - Literacy

In point form report the results of last year’s plan to improve literacy, and what was learned. Reference specific SMART goals and outcomes.

### Results of 2010-2011 CIF Plan - Numeracy

In point form report the results of last year’s plan to improve numeracy, and what was learned. Reference specific SMART goals and outcomes.

### Results of 2010-2011 CIF Plan – Student Support Services

In point form report the results of last year’s plan, and what was learned. Reference specific SMART goals and outcomes.

### Results of 2010-2011 CIF Plan – First Nations & Métis Outcomes

In point form report on progress and results of any FNMEAF projects in addition to specific actions undertaken to remove performance gaps. Report on the results of last year’s plan.

### SMART Goals are generally considered to be:

- S - specific, significant, stretching
- M - measurable, meaningful, motivational
- A - agreed upon, attainable, achievable, acceptable, action-oriented
- R - realistic, relevant, reasonable, rewarding, results-oriented
- T - time-based, timely, tangible, trackable

### Plans for Improving Instruction and Increasing Learning Through the Use of Data

Use of reliable and valid data can improve student outcomes. List actions you are taking to assist your teachers in using data appropriately.

### Plans for Involving School Community Councils in Learning Improvement Plans

Evaluate the current level of participation by SCC members in the development of school Learning Improvement Plans. Outline actions you will be taking to increase the level of participation.

### Plans for Early Childhood Education

List specific actions designed to improve outcomes and programs in the early years. How will you evaluate progress?
### Section 1: Context

**School Mission Statement**

**School Vision Statement**

### Governance Structure

School Community Council Structure - Describe how the SCC was involved in the LIP.

### Student Demographics

School and Grade Configurations and Enrolments

### General Program Overview

School Programs and Services
Section 2: School Plan

**Provincial Priority Area:** Higher Literacy and Achievement

**School Goal:**

Communication Plan
Appendix F

Core Indicators 2011-12
There are fewer Core Indicators for this year, and they are primarily aimed at demonstrating improvement within the division, with less comparison to the provincial average.

1. Persistence to complete grade 12
   a. % of students completing in 3 years
   b. % of those students not completing who are still in school
   c. size of gap for First Nations & Métis students
2. Average credits per student grades 10, 11 & 12
   a. credits earned by students getting occasional or frequent supports
   b. size of gap for First Nations & Métis students
3. Selected grade 10-12 Final Marks
   a. size of gap for First Nations & Métis students
4. Treaty Essential Learnings results
   a. participation rate
   b. size of gap for First Nations & Métis students
5. Enrolment by Grade
6. Education Finance
   a. Instruction Expenditures by Category as a Percentage of Total Budget
7. AFL Sub-population Reports (Mathematics, Reading, Writing)
   a. % of students scoring at a “Proficient” level
   b. size of gap for First Nations and Métis students
8. Selected School Community Council Survey Results
   a. % of SCCs with elected & required appointed members
   b. % of SCCs that were provided with orientation, training and development, and networking opportunities
   c. % of SCCs who fully participated in developing the Learning Improvement Plan
9. Transition Rate from Grades 1 to 10
