Goal:
Participants will have the opportunity to:

- receive information regarding the expected outcomes of early literacy and the processes involved, including administration of the EL screen and DRA.
- learn about the five components of effective reading instruction and how to incorporate these components into curricular planning.
- incorporate the powerful instructional strategies and other recommendations of *Saskatchewan Reads* into their ELA instruction.
- work with a division EL coach to support teacher and student learning.

So that teachers

- develop an understanding of early literacy.
- have an awareness of the interdependence of the five components of effective reading instruction.
- understand the alignment between EL, DRA, and curricular outcomes and are able to incorporate all strands of ELA in the planning of contextual units
- become familiar with the benefits of guided reading and progress monitoring through running records.
- understand the assessment process (EL, DRA), the data entry system, and how to use data to plan and differentiate instruction.

So that students....

- benefit from having their reading abilities monitored closely to enable teachers to detect weaknesses and provide early intervention.
- receive reading instruction at the level they require to improve their reading ability.
- benefit from strategic and explicit language arts instruction and assessment.

Overview: The goal of the six inservice days is to provide teachers with the foundation needed to provide effective reading instruction to students and to understand the five components of reading and the role they play. The ability to use data to detect areas of need will assist teachers in differentiating instruction to meet the needs of all students. Planning a balanced language arts program incorporating all strands of ELA will be discussed.
