REPORTS FROM ADMINISTRATIVE STAFF:

(a) Director's Update

- School Food Programming

School food programming continues to play a vital role in supporting student well-being and readiness to learn across Saskatchewan Rivers Public School Division. This year the Division received $113,664 through the Child Nutrition Program funding grant to support food purchases in our schools. The Division also received its second round of National School Food Programming funds to further support feeding students. This funding totaled $429,456 and schools are excited to have these funds to maintain and expand their current programing. The National School Food Programming specifically consists of $279,421 in operating funds and $150,035 Year 2 one-time expansion enhancement funds. There is a total funding increased by $127,542 from last year with a new dedicated enhancement/expansion funding component.

- Enrolment

The Division's September 30 enrolment data has nearly been finalized. As of September 25 update, we were below projection by 21 students where we anticipated. Our enrolment of 8631 includes Pre-K, K-12 and home school students. We projected 8652 total enrolment.

- Meath Park Daycare

Meath Park Daycare opened its doors on Thursday, October 1, 2026.

- City of Prince Albert Police Service Update

The City Police Service Chief shared details about its strategic plan and a statistical update at a recent Chamber luncheon attended by Administration and interested trustees.

- Upcoming Division events were highlighted for information.

(b) Budget Development Process

N. Finch reviewed the current principles, guidelines, and timelines for the budget development process for information.

BACKGROUND

RE: **ADMINISTRATIVE PROCEDURES CHANGES**

The following Administrative Procedure has been revised. The revision has been highlighted and deletions ~~crossed out~~ for easy reference.

- AP 345: Admission of Resident Students

RECOMMENDATION

For Board information.

ADMISSION OF RESIDENT STUDENTS

Background

The Division believes in providing a clear admissions protocol for all students resident in the Division. Resident is defined in *The Education Act, 1995,* Section 173(1) as follows:
"*Resident means a person whose place of residence is inside the boundaries of the school division in which the person seeks or is provided with educational services.*"

Every resident person who has attained the age of six years but has not attained the age of 22 years has the right to attend school in the Division and to receive instruction which is in alignment with his or her educational achievement in courses of study approved by the Division.

RProcedures

1. Subject to terms and conditions contained in *The Education Act, 1995,* no school official shall deprive or attempt to deprive a student of access to services approved and provided by the Division.

2. When a student enrolls in a Saskatchewan Rivers Public school for the first time, the principal shall require the student to submit documentation verifying age. The following documents may be used:
   2.1 Birth Certificate,
   2.2 Baptismal Certificate,
   2.3 Passport,
   2.4 Saskatchewan Health Services Card or equivalent.

3. The principal shall normally be responsible for the decision on the admission of students to the school. In consideration of the general interests of the Division, in exceptional circumstances the final decision may revert to their superintendent for appropriate school placement.

4. Principals shall be authorized to assess, collect, and record such information as is required for the admission of students to school. Furthermore, it shall be the responsibility of the parent/guardian to submit information as may be required by the principal.

5. In those cases where appropriate instruction cannot be provided within the Division, the required services may be obtained from agencies outside the Division.

6. Early Entrance
   In a school community where there is no Prekindergarten, children who (a) are age appropriate for Prekindergarten as described below, (b) qualify as intensive needs, and (c) have atypical development, may be enrolled in school-based or community-based early learning programming, provided the following conditions are met:
   6.1 Space and resources are available.
   6.2 Student Support Services conducts an individual assessment in conjunction with medical and early childhood psychologists.
   6.3 The superintendent responsible for student support services approves the enrolment request.
   6.4 Placement is determined by Student Support Services team in collaboration with the principal (See Appendix A).

7. Prekindergarten
   Prekindergarten is a targeted program available in designated schools for students who are three and four year old children. ~~and will not be five years before or on December 31.~~

   The Prekindergarten application process follows.
   7.1 Application forms may be submitted for children who are three or four years old by December 31 in the year of enrolment.
   7.2 Space ~~may be~~ is limited in Prekindergarten programs. A school-based selection committee prioritizes the enrolment of children. From the submitted applications, children may be selected to begin Prekindergarten following their third birthday.
   7.3 A continual entry policy permits new children to enter Prekindergarten when openings occur during the school year.

8. Kindergarten
   Children may enroll in Kindergarten provided they are five years old by December 31st in the year of enrolment. If a child will be six years old on or before December 31, the recommended placement is Grade 1. However, if parents chose to put a pause on having their child start school and that child has never been in Kindergarten, conversations with the school administrator will take place to determine placement. This will only be a consideration if the child will not be six years old prior to September 1.

9. Grade 1-12
   Students from Grade 1-12 will be placed in the appropriate grade based on the following considerations:
   a) Age appropriate for that specific grade based on age of child by December 31 in the school year of enrolment.
   b) Previous grade level registered in, if registered within the past school year.
   c) Credits achieved and graduation plan for Grade 10-12.

10. For all Prek-12 grade placements that need further discussion the principal will bring the information to the school superintendent for a decision based on the criteria outlined in AP 345. For unique circumstances and situations that fall outside of the clarity of AP 345, the school superintendent will bring the information to the Administrative Council to determine the appropriate grade placement.

RE: DIRECTOR UPDATE

1. **SRPSD Annual Art Show**
   SRPSD Annual School Art Show is scheduled for Wednesday, November 4, 2026, at the Education Centre with a Come and Go is from 4:00 to 6:30 p.m., and award presentation at 6:00 p.m. This showcase highlights not only the remarkable work of our students but also the guidance and encouragement of teachers, staff, and families who support them.

2. **English Language Arts Saskatchewan Student Assessments**
   This is the first year for the ELA 10 & 11 Ministry mandated Saskatchewan Student Assessments (SSA). See attached Fact Sheet for 2026-27.

RECOMMENDATION

For Board information and discussion as warranted.

Saskatchewan Student Assessment Platform Exploration Fact Sheet – 2026-27

What is Platform Exploration?

Platform Exploration is a short practice activity that helps students learn how to use Saskatchewan's online assessment platform. During this practice session, students will log in, answer fun Saskatchewan-themed questions and try out the digital tools built into the platform.

This ensures that students feel comfortable and confident with the system before participating in assessments.

Why is this important?

- Reduces technical issues during the field test.
- Increases student confidence in using online assessment tools.
- Familiarizes students with accessibility features and accommodations they may need.

Who participates?

All classes participating in the 2026-27 pre-field test, field test, or operational assessment, including:

- Grade 5 and Grade 9: Mathematics
- Grade 4, 7 and 10: English language arts (ELA)

When does it take place?

The Platform Exploration window extends from:

- **November 2 to 13, 2026** for ELA 10 classes finishing in the first semester.
- **April 12 to 23, 2027** for ELA 4, 7, and 10 (second semester) classes.
- **April 26 to May 7, 2027** for Math 5 and 9 classes.

Teachers will schedule the exploration session at any time within this window. The activity generally takes 15 to 20 minutes.

How does it work?

Students complete a series of six questions about fun facts related to Saskatchewan to help them become familiar with the platform and its features.

This is not a graded assessment. It is simply a chance to explore and get comfortable with the platform.

Where can I learn more?

FROM: **D. Blais, Superintendent of Facilities** **ATTACHMENTS** [√]

BACKGROUND

RE: 2026–2027 PREVENTATIVE MAINTENANCE AND RENEWAL (PMR) AMENDMENTS

The attached PMR Amendment Form outlines proposed updates to the Division's previously approved PMR plans, primarily for the 2026–2027 school year, along with budget adjustments to two projects initiated in 2025–2026. The proposed changes include new projects, revised budgets, expanded scopes of work, and adjustments to project timelines based on updated facility assessments and emerging priorities.

For the 2026–2027 school year, the Division has received $3,500,429 in approved PMR funding, along with $4,054,976 in carry-forward funding from previous years, for a total of $7,555,405 available for PMR projects.

The Facilities Department has developed an aggressive plan to complete as much PMR work as possible during the current school year to reduce accumulated carry-forward funding while addressing significant infrastructure needs across our facilities.

The proposed amendments place a strong emphasis on addressing the Division's backlog of roofing and mechanical system replacements. Key priorities include:

- Roofing replacements, repairs, and restorations at Carlton, Canwood, Spruce Home, Westview, and W.P. Sandin schools.
- Mechanical system upgrades, including boiler replacements, heating system repairs, and building management system controls.
- Fire protection and sanitary sewer system replacements to address aging infrastructure and operational concerns.
- Adjustments to previously approved project budgets to reflect updated construction costs, revised scopes of work, and current facility priorities.

...2

Although W.P. Sandin High School has been approved for replacement, portions of the existing roof have reached the end of their serviceable life and have significant moisture deterioration. There are currently several areas where water leaks into the school during heavy rainfall events and the spring thaw. The proposed roofing work is necessary to address these ongoing leaks, prevent further deterioration of the building, and maintain a safe and functional learning environment until the replacement facility is constructed. With the existing school expected to remain in use for several more years, these repairs are considered necessary in the interim.

An updated copy of the 2026–2027 PMR Maintenance Plan has also been attached for reference. The plan reflects the proposed amendments and outlines approximately $5.9 million in planned maintenance and renewal projects for the current school year.

RECOMMENDATION

That the 2026–2027 Preventative Maintenance and Renewal (PMR) Amendments be approved as presented.
