

Administrative Procedure 213

THE HUB (INTER-MINISTERIAL COLLABORATIVE SUPPORT)

Background

The Division supports inter-ministerial collaborative support to better meet the needs of students and/or their families deemed to be at acutely elevated risk across multiple human service providers. The Hub is a multi-agency, inter-ministerial team designed to mobilize the delivery of human services to individuals and/or their families in order to provide an immediate, coordinated and integrated response to mitigate the acutely elevated risk in order to reduce harm, crime and victimization.

Procedures

1. SRPSD employees will refer students to the Hub through the principal.
2. The principal will consult with school and/or school division personnel to determine whether or not all of the school and school division resources have been exhausted in order to mitigate the acutely elevated risk of a student and/or their family.
3. When it has been established that all of the school and school division resources have been exhausted and that an inter-ministerial response is needed to mitigate the acutely elevated risk then the principal or designate will complete the [Hub Referral Form](#). The principal may inform their superintendents about the Hub referral if deemed necessary.
4. In situations where consent is required, a consent for the referral will be sought using a Hub Release of Confidential Information Form [Consent Form](#). In situations where a student's mental health or physical safety need to be protected consent is not required.
5. The principal will sign the referral form and email it to the CMPA Education Representative and the Superintendent of Schools responsible for the Hub.
6. After consultation between the parties identified in procedure 4 and 5 has been completed and it has been determined by all parties that that the referral has met the requirements to be discussed at the Hub then the SRPSD hub member will present the referral to the Hub.
7. Following the Hub meeting, inter-ministerial decisions and intervention plans will be shared with the principal and/or designate. Collaboration between the Hub and the school may determine the school-based team's involvement in mobilizing the plan.
8. Schools will engage in cooperation with Hub interventions with the highest priority.
