Education is about our future.

I had the opportunity to be a Teacher and Principal in Prince Albert and area for 25 of my 30 year career in education. I believe that high quality education centres on the whole child. It is imperative that we maintain a school system that promotes an environment that is healthy, safe, encouraging, supportive and challenging for our children. As a member of the Board of Education, I want to promote policies that balance the supports we give students to build a high quality learning environment for each learner.

I obtained my degree in education from the University of Regina, and my master's degree at the University of Oregon. I have been active in educational leadership at local, national and international levels. I am an active volunteer with Prince Albert Minor Softball, the Klassic Kruizers Kar Klub and many other organizations in Prince Albert.
