

**Jeneen Yungwirth**  
**In-City Subdivision**

I grew up in Prince Albert and moved away shortly after getting married. While being away for 18 years I gained valuable insight into how other cities and school divisions operate, being involved in my 3 teenaged children's education. A major focus of mine is to ensure that our scarce tax dollars are utilized in the most efficient manner while ensuring student success. Using my voice in this position I will honor the motto "Excellence for every learner."

I have obtained a diploma in business administration and bring forth over 15 years experience of being self employed. As candidate for school trustee I look forward to ensuring we are changing with the times as required.

I will represent the citizens of this city and contribute to a board that has a very important responsibility to the students and taxpayers in managing a large budget.
