

Cathy Appelgren—Subdivision 2

My name is Cathy Appelgren, I live in MacDowall and I work as a Lab Assistant at the Prince Albert Cooperative Health Centre. I have spent 15 years on a school board in southwest Saskatchewan, 9 years as vice chair and 3 years as chairperson. I was a member of the Saskatchewan School Boards Association executive for 2 years. I was Reeve in the RM of Duck Lake for 2 years.

I have served on many committees and boards including Prince Albert Early Childhood Intervention Program, the local Recreation Board and provincial bargaining committee.

I have spent my working career in the health field and 20 years of the was working in a Pediatric medical practice where we did lots of training and work with learning disabilities.

I believe in public education and that we need to educate our children as close to home as possible. With the financial restraints we currently have in this province balancing the budget and educating children will get much tougher but we must keep children in the forefront.

As the elected member on the SRSD Board of Education I will work hard to represent the children at the table and ensure we provide the best education possible.
