

Donna L. Braham
In-City Subdivision

I am a retired secondary and post-secondary teacher with a passion for community, for learning and for helping others to learn.

I hold a Bachelor of Education degree, a local government certificate and a business college certificate. I worked as a teacher, an office manager, librarian, small business owner, and chamber of commerce president. This education and experience has helped me hone skills in communication, teamwork, accounting, time management and ethics; all of which would be valuable as a trustee for the Saskatchewan Rivers School Division.

I believe that volunteerism and participation in a community is essential for the success of that community. I am a member of the Saskatchewan Lymphedema Association, and volunteer for the Cancer Society, Lung Association and Diabetes Association.

Being retired, I have significant time to devote to meeting student needs and working collaboratively with stakeholders. I would be honoured to represent you as trustee.
