

**Sylvia Gent**  
**In-City Subdivision**

Masters of Continuing Education, University of Saskatchewan.

Served as a Nurse practitioner and administrator for Health Canada throughout Northern Canada, Director of Assessment Pineland Homecare, Director of P.A. Mobile Crisis, Manager of the Kids First, an early childhood development program for vulnerable families, and sessional lecturer for Sunteq, University of Saskatchewan and First Nations University in Health Studies and Community Development.

Founding and current President Abbeyfield Houses Society.

Board member, Prince Albert Housing.

I believe that education is the key, not only to employment opportunities, but to explore and enjoy the variety of life fully: sports, the arts, books, many different cultures and travel, languages, technology and more.

I want to see all children and families receive support to allow them to take full advantage of education.

I want to see staffing levels, technology, educational materials for students and staff prioritized in a time of government financial restraint.
