ADMINISTRATION & PROFESSIONAL RESOURCES			
Power of pictures, The By Beth Olshansky	Beth Olshansky. ill. (some col.) ; 26 cm. + DVD Includes bibliographical references (p. [219]- 221) and index. The foundation -- Why build art into literacy learning? -- Bringing words and pictures together: a new model -- The workshop process -- Reading: study of quality picture books -- Art: thinking in pictures -- Writing: weaving pictures into words -- Refining and celebrating the work -- Planning, implementing, and assessing lessons -- Developing visual literacy: study of two picture books -- Mini-lessons: painting to writing -- Conclusion: The power of pictures - - Appendix A: Program effectiveness: research results -- Appendix B: Instructional tools -- References -- Index.	372.5 OLS	
Working with children and youth with complex needs By Michael Ungar	Includes bibliographical references (pages 196-206) and index. Working With Children and Youth with Complex Needs provides detailed description of techniques and rich stories of how mental health professionals can help young people become more resilient. With ample case studies and fascinating explanations of research, Dr. Ungar shows why we need to work just as hard at changing the environments that surround children as we do trying to change children themselves.	618.92 UNG	
ARTS			
Abstract art By Slix Wood	(Create it!) Abstract art might seem hard to define. But, by introducing readers to the major artists of the style, they'll have a good idea of the general characteristics of an abstract piece. In addition to biographical information about Henri Matisse, Jasper Johns, Paul Klee, and more important abstract artists, readers	709.040 WOO	Gr. 4-6

	learn about each masters most famous pieces and ways they were able to achieve the look of the work. Fun, colorful projects accompany each artists spreads, showing readers how they, too, can make cool abstract art.		
Cubist art By Alix Wood	<i>(Create it!)</i> One artist that comes to mind in connection with cubist art is Pablo Picasso. Picasso famously painted in a cubist style from about 1909 to 1912. Readers can try out Picassos techniques as well as those of Paul Cezanne, Juan Gris, and others in this introduction to cubism. Biographical information of these master cubists is paired with a colorful layout sure to engage young artists. Step-by-step instructions and tip boxes guide readers through creating several cubist masterpieces based on techniques and the best-known works of these famous cubists.	709.040 WOO	Gr. 4-6
Expressionist art / By Alix Wood	<i>(Create it!)</i> Readers might be familiar with some of the works of Vincent Van Gogh. What they might not know is that he was an expressionist. The expressionists used color and painting techniques to suggest mood and emotion. An introduction to expressionism and celebrated expressionists, this book presents readers with the life and famous works of Edvard Munch, Van Gogh, Marc Chagall, and more through understandable, age-appropriate content. Each colorful spread includes an art project based on the works of the artist profiled in that chapter, complete with step-by-step instructions and photographs to guide readers as they create their own masterpiece.	709.040 WOO	Gr. 4-6
Impressionist art / By Alix Wood	<i>(Create it!)</i> Some of the most famous artists of all time were from the impressionist school. Claude Monet, Georges Seurat, and Edgar Degas all created works that have stood the test of time, and they were impressionists. Readers learn about the characteristics of impressionist art and the techniques used to create it. Master impressionists are profiled throughout the book, including information about their beautiful works. Readers can use this new knowledge to follow step-by-step instructions and make several art projects in the impressionist mode. Tips and full-color photographs help readers as they create, teaching them techniques they can use in future projects.	759.05 WOO	Gr. 4-6

<p>Pop art / By Alix Wood</p>	<p><i>(Create it!)</i> What made pop art special? Readers can find out the answer to this question through the colorful, fun pages of this book, which highlights the major features and figures of pop art. Profiles of Andy Warhol, Roy Lichtenstein, Richard Hamilton, and more pop artists introduce readers to famous pop art works as well as major techniques each artist used. Then, they can put this knowledge to work in accompanying art projects inspired by the work of the pop artist in that chapter. From using newspaper to make a collage to using benday dots, young artists have a multitude of styles to learn from.</p>	<p>709.04 WOO</p>	<p>Gr. 4-6</p>
<p>Surrealist art / By Alix Wood</p>	<p><i>(Create it!)</i> Its fun to draw from your imagination. Surrealist artists, such as Salvador Dali and Max Ernst, created masterpieces of scenes that look real but couldn't be. Through an introduction to the features of surrealist art and profiles of famous surrealists, readers learn how to spot a painting or other work created in this genre of art. A colorful layout and full-color photographs engage readers with art history and their own creativity as they complete art projects accompanying each artists chapter. Including collages, painting, and drawing, each project offers readers clear instructions for the project at hand as well as technique tips they can use in the future.</p>	<p>709.040 WOO</p>	<p>Gr. 4-6</p>

<p>ABCs with Elmo</p>	<p>1 Playaway video player. An all-in-one way to watch videos on-the-go. Contains the following 2 videos: Learning about letters (30 min.) With the help of his Sesame Street friends, Big Bird leads Snuffy on a fun-filled trip through the alphabet. Whether you have a favorite letter, or love 'em from A to Z, you'll find them all here in delightful alphabetical disorder! The Alphabet Jungle Game (26 min.) Elmo, Zoe, and Telly are exploring the Alphabet Jungle, where letters grow on trees, Every letter from A to Y leads them on an animated alphabet adventure. But what about A? Come play the Alphabet Jungle Game and you'll find out!</p>	<p>PV 411 ABC</p>	<p>PreK-K</p>
<p>Adventure and imagination</p>	<p>1 Playaway video player. An all-in-one way to watch videos on-the-go. The following videos are included:</p>	<p>PV E ADV</p>	<p>PreK-Gr. 3</p>

	<p>Hello Sun (8 min.) Quentin the hedgehog longs to see the sun, but the trees in the forest where he lives block his view. So Quentin comes up with a plan--he'll build a treehouse! But this proves to be a big task for a little hedgehog. With a little determination and some help from his friends, Quentin reaches new heights and finally greets the sun.</p> <p>I wish I had freckles like Abby (3 min.) Rosa wants freckles just like her friend Abby. How can she get them? Maybe chocolate pudding will do the trick! How about some mud puddle dots? Big sister's makeup? Rosa comes to realize that she might have something that is just as good as the longed-for freckles.</p> <p>Princess Justina Albertina (8 min.) Princess Justina Albertina likes to have her own way. When she doesn't get it, she gets a funny look in her big green eyes and starts to fuss. She causes a ruckus and a rumpus and a horrible hubbub. When this horrid princess declares, "I WANT A PET!" her nanny searches far and wide to find the pet of Princess Justina Albertina's dreams. A satisfying comeuppance will surprise and delight readers of all ages.</p> <p>Sally Dog Little (11 min.) When the Littles decide it's time to get a dog, everyone has a specific purpose in mind. Papa wants Sally Dog Little to bark only when burglars come. Mama wants Sally Dog Little to walk with her every morning, afternoon, and evening. Twinkle Little wants Sally Dog Little to sleep on her bed and cuddle up close. Sally Dog Little commences her working life and does what is expected of her. But then things go awry, and the formality of the Littles' household threatens to come undone. It's up to Sally Dog to restore order!</p> <p>Stella the star (6 min.) Stella's parents are so proud. Her teacher wants her to be the star in the school play. So her parents take her shopping for new shoes and a new dress, get her hair cut at a fancy salon, and buy the best camera there is to take pictures during the show. After all, only the best will do for their star. After much anticipation, the adorable Stella wins the hearts of all audiences and makes her parents very proud in this charming story with a surprising finale.</p> <p>When pigs fly (5 min.) Ralph's father tells him he can have a new bicycle "when pigs fly." Instead of giving up, Ralph cheerfully tries to get his curly-tailed pals airborne.</p>

Beauty and the beast and other great stories	<p>An all-in-one way to watch videos on-the-go. The following videos are included: Pegasus the flying horse : This animated feature shimmers with all the excitement of Pegasus' captivating life adventure: his wondrous birth from the serpent-headed Medusa; the great battle with the multi-headed Chimarera; his appointment by Zeus as thunderbearer; and Pegasus' final glorious transformation into the majestic constellation that bears his name today. Beauty and the Beast : To save her beloved father, a beautiful young girl agrees to become the companion of a brutish and unhappy Beast. As time passes, love works a miraculous change in their lives. Merlin and the Dragons : Young Arthur doesn't understand why pulling a sword from a stone qualifies him for kingship. Old Merlin tells him the story of his own childhood, when he first learned to trust in himself; a tale about fighting dragons, chasing armies and a young boy's prophetic dreams. Merlin's story inspires young Arthur with the confidence he will need to become a great King.</p>	PV 398.2 BEA	Gr. 3-6

Nouns, pronouns & possessive nouns	1 digital video disc. (13 min.) : sd., col. ; 4 3/4 in. Through live-action footage, colorful graphics and animation, students will learn about nouns, plural nouns and possessive nouns. In chapter one, children will learn that nouns are words that name a person, animal, place, thing or idea. Students will also come to realize that nouns can also name more than one person, animal, place, thing or idea. Proper nouns are also discussed. Students will learn to identify nouns and proper nouns in a sentence. . Plural nouns are introduced in chapter two. Through live-action video, graphics and	DVD 415.5 NOU	K-Gr. 12

	<p>animation students will learn simple rules they can use to turn singular nouns into a plural noun.</p> <p>Chapter three introduces possessive nouns to young students. Learners will come to know that a possessive noun shows that a person, animal, place, thing or idea can possess something. Through real life examples, graphics and animation, students will learn the different ways to make nouns possessive and simple rules for singular and plural possessive nouns. The program provides a variety of examples to help support a child's understanding of each concept.</p>

Tilly: a story of hope and resilience By Monique Gray Smith	<p>Tilly has always known she's part Lakota on her dad's side. She's grown up with the traditional teachings of her grandma, relishing the life lessons of her beloved mentor. But it isn't until an angry man shouts something on the street that Tilly realizes her mom is Aboriginal too a Cree woman taken from her own parents as a baby. Tilly feels her mother's pain deeply. She's always had trouble fitting in at school, and when her grandma dies unexpectedly, her anchor is gone. Then Abby, a grade-seven classmate, invites her home for lunch and offers her something special to drink. Nothing has prepared Tilly for the tingling in her legs, the buzz in her head and the awesome feeling that she can do anything. From then on, partying seems to offer an escape from her insecurities. But after one dangerously drunken evening, Tilly knows she has to change. Summoning her courage, she begins the long journey to finding pride in herself and her heritage. Just when she</p>	CS 813.54 SMI 30 copies	Gr 7+

	<p>needs it most, a mysterious stranger offers some wise counsel: Never question who you are or who your people are. It's in your eyes. I know it's in your heart.</p> <p>Loosely based on author Monique Gray Smith's own life, this revealing, important work of creative nonfiction tells the story of a young indigenous woman coming of age in the 1980s. In a spirit of hope, this unique story captures the irrepressible resilience of Tilly and of indigenous peoples everywhere.</p>

<p>You can keep yourself safe:</p>	<p>1 digital video disc. (20 min.) : sd., col. ; 4 3/4 in.</p> <p>Through age-appropriate vignettes students will learn the difference between a safe touch and an unsafe touch. Students will come to understand that any touch whether it's a high-five, a hand shake, a kick, a fist bump, a punch or a kiss can be labeled safe or unsafe depending on the situation and whether or not someone agrees to the touch.</p> <p>The video reinforces the message that only YOU can decide if it's a safe touch or an unsafe touch and that YOU set the boundaries. Viewers will also come to know about "private parts" of the body and that nobody should ever touch your "private parts" with a few exceptions.</p> <p>Students will learn what they can do when they feel uncomfortable with a touch and determine it is an unsafe touch. Children will understand the importance of saying STOP and repeating it over and over again until the perpetrator complies. They will come to realize that they're in charge of their body and that only they can decide if it's a safe or unsafe touch.</p>	<p>DVD 363.1 YOU</p>	<p>Gr. 5-8</p>

Amazing planet	<p>1 Playaway video player. An all-in-one way to watch videos on-the-go. The following videos are included: Born of fire (54 min.) Learn about the molten magma that drives the conveyor belt of plate tectonics. Driven by this dynamo, the ocean floor rips apart, continents collide, mountains rise, volcanoes erupt, earthquakes shake and tsunamis inundate. The story of lava is a whirlwind trip from earth's beginnings to its present state – and affords us a glimpse into a possible future where Africa splits apart, the Atlantic grows vast and the Pacific shrinks, California breaks off from America to become a new island...and a super-volcano changes life as we know it forever. Ocean Realm (50 min.) Beautiful, bewildering and largely unexplored, our oceans dominate our planet. How did they form? Why haven't they evaporated away? We take an journey through time... watch as our world freezes solid... long ago... and peek at the ocean's possible future. We journey from the mind-bending beauty of coral reef shallows to the deepest depths of Mariana Trench, while glimpsing everything in between... Destructive forces (50 min.) When it comes to natural wonders, few things can rival what water, ice and wind have carved into the earth – from Niagara Falls to the Grand Canyon... and from vast deserts with singing sand dunes to the eerie beauty of deep cave systems. We head to the places where powerful sculpting forces have created some of the most stunning and unique landscapes imaginable.</p>	PV 550 AMA	Gr. 6+

<p>Animals: what they are and where they live</p>	<p>1 Playaway video player. An all-in-one way to watch videos on-the-go. Contains the following 9 videos: Living and Nonliving Things (12 min.) : Students learn that all living things have needs and some of these are air, water, and energy from food. Animal Features and their Functions (13 min.) : Head, tail, wings, feathers, fur, and claws. Discover how these and other parts of animals help them live in different habitats. Animals Groups: Beginning Classification (16 min.) : Mammals, Birds, Fish, Amphibians, Reptiles, and Insects. Simple explanations and vivid footage provide an excellent lesson in classifying animals. Animal Lifecycles (14 min.) : Children learn that living things grow and change. Desert Habitats (21 min.) : Take a video field trip to some of the driest regions on Earth to learn how different plants and animals adapt to little rainfall and extremes in temperature. Forest habitats: (15 min.) : Visit deciduous and evergreen forests to see the plants and animals that make this ecosystem their home. Ocean Habitats: Shoreline and Reef: (16 min.) : Discover the unique environment where the water meets the land in the amazing living habitat of the reef. The Tropical Rainforest Habitat (15 min.) : Peek inside the wettest habitat on land to learn about the special adaptations plants and animals make to ensure survival, including symbiosis. Habitats: Homes for Living Things (15 min.) : Peek into the habitats of different kinds of animals to see how they meet their needs. Visit a pond, a desert, a forest, a rainforest, and other habitats to discover how their resident animals and plants survive and thrive in these unique environments. Suggested Use: Science K- Living Things in Our Environment; Grade 1- Needs and Characteristics of Living Things; Grade 2- Animal Growth and Changes.</p>	<p>PV 590 ANI</p>	<p>Gr. 3-6</p>

<p>Earth's water (6 books) By Ellen Lawrence</p>	<p><i>(Drip, drip, drop: Earth's water)</i> We see it in ponds, lakes, and rivers. We splash in it when we visit the seashore. Every living thing on Earth, from tiny insects to the</p>	<p>KIT 551.48 LAW</p>	<p>Gr. 2</p>

	<p>tallest trees, needs it to survive. What are we talking about? Water! This new Science Slam! series takes a fresh look at Earth's water. What is water made of? Where do we find salt water and fresh water? How did all the water beneath the ground get there? And why do our bodies need water to stay healthy?</p> <p>Contents: 1 each of: Covered in water. -- Say hello to H₂O. -- Water beneath your feet, The. -- Wet, blue, and good for you. -- What's so fresh about fresh water? -- Why is seawater salty?</p> <p>Suggested Use: Science Grade 2- Air and Water in the Environment.</p>		
Exploring ecosystems (6 books)	<p>Contents: 1 each of: Boreal forests. -- Caves. -- Shaparrals. -- Polar Regions. -- Tundras. -- Wetlands.</p> <p>Suggested Use: Science Grade 1- Needs and Characteristics of Living Things; Grade 2- Animal Growth and Changes.</p>	KIT 577 EXP	Gr. 1-2
From the Earth (6 books)	<p><i>(From the Earth: how resources are made)</i> Natural resources power our world, give structure to our buildings, decorate our bodies, and fulfill countless other functions. This informative series guides readers through the amazing processes within Earth that produce our most precious resources.</p> <p>Contents: 1 each of: How coal is formed. -- How gems are formed. -- How iron ore forms. -- How natural gas is formed. -- How oil is formed. - - How precious metals form.</p> <p>Suggested Use: Science Grade 7- Earth's Crust and Resources.</p>	KIT 533 FRO	Gr. 4-7
Geology rocks! (8 books)	<p>Did you know that scientists are using crystal shapes to design medicine? Or that the igneous rock pumice helps to make concrete light in weight? Even though rocks and minerals can be found almost everywhere on Earth, there is still so much to learn about them!</p> <p>Contents: 1 each of: Crystals. -- Fossils. -- Igneous rocks. -- Metamorphic rocks. -- Minerals. -- Rock cycle, The. -- Sedimentary rocks. -- Soil.</p> <p>Suggested Use: Science Grade 4- Rocks, Minerals and Erosion.</p>	KIT 552 GEO	Gr. 4
Grow light system	<p>THESE MUST BE PICKED UP AND RETURNED DIRECTLY TO THE TRC. THEY SHOULD NOT GO IN THE SCHOOL DELIVERY.</p> <p>1 High output T5 Grow light system.</p>	EQ 635.982 GRO 4 lights	

	<p>kit includes: 4 foot reflector with T5 high output fluorescent bulb. -- Sleek, adjustable, sturdy frame for hanging. -- 6 foot power cord with on/off switch. 31 3/4" H X 18 1/4" W X 50" L</p>		
Polar climates	<p>1 Playaway video player. An all-in-one way to watch videos on-the-go. The following videos are included: Emperors of the ice (52 min.) In the frozen wilderness of Antarctica, where oceans ice over and just staying alive is an achievement, one creature has perfected the art of survival—the emperor penguin. Emperor penguins are sublimely built to conquer the cold—but in a world threatened by climate change, can they take the heat? Parts of Antarctica are warming, giving birth to huge icebergs, and the consequences could be catastrophic in a place where all life is touched by the ice. Using Crittercam, scientists hitch a virtual ride under the ice with the emperor penguin to study the impact of climate change on the penguin's world. Masters of the Arctic ice (51 min.) Journey to the top of the world to witness firsthand how the planet's changing climate is affecting the creatures that inhabit the icy Arctic. See how the quickly melting Arctic ice affects the survival skills of ringed seals, polar bears, and narwhals. These Arctic creatures have become masters at negotiating the perils of this frozen world, but their dependence on the ice is also their greatest vulnerability. National Geographic's Crittercam technology provides a never-before-seen perspective on this changing world. See how the resourceful creatures of the Arctic are learning to adapt—from their own point of view.</p>	PV 590.11 POL	Gr. 5+
What causes a rainbow? By Janet Slingerland	<p><i>(Everyday Earth science)</i> Find out how raindrops in the air bend sunlight to turn it into a colorful rainbow. Suggested Use: Science Grade 4- Light (LI).</p>	551.567 SLI 2 copies	Gr. 4+
What is a solstice? By Gail Terp	<p><i>(Everyday Earth science)</i> Find out how the movement of Earth causes the first day of summer and the first day of winter.</p>	508 TER	Gr. 2-5
What is the difference between clouds and fog? By Kristen Pope	<p><i>(Everyday Earth science)</i> Find out how clouds and fog are formed and how they are alike and different.</p>	551.576 POP	Gr. 2-5
