<p>Answering the calls :</p>	<p>"Our students and staff are learning that we need to educate ourselves about the problems in our society and that we must do the work necessary to implement the solutions proposed by the TRC," says Rhona Churman, Principal, École Laura Secord School. "This book started out as a much smaller project to make it easier for young people to fully understand what the TRC Calls to Action meant, and it has grown as we've learned more, and recognized the need for understanding among a much larger audience."</p> <p>In their classrooms, students had plenty of time to explore the 94 Calls to Action and get familiar with the text.</p> <p>"Our teachers helped up understand the Calls to Action, and we wrote them so that someone younger could understand them," said student Calvin Keating.</p> <p>Along with providing a translation for younger readers, students also wrote about the reasons why each Call to Action existed.</p> <p>"The book actually has the kids' explanations of the problems that each Call</p>	<p>71.829 ANS</p>	<p>Gr. 4-6</p>
