Beartown By Fredrik Backman	A dazzling, profound novel about a small town with a big dream and the price required to make it come true. People say Beartown is finished. A tiny community nestled deep in the forest, it is slowly losing ground to the ever encroaching trees. But down by the lake stands an old ice rink, built generations ago by the working men who founded this town. And in that ice rink is the reason people in Beartown believe tomorrow will be better than today. Their junior ice hockey team is about to compete in the national semi-finals, and they actually have a shot at winning. All the	CS 813.54 BAC 30 copies	HS

	<p>hopes and dreams of this place now rest on the shoulders of a handful of teenage boys. Being responsible for the hopes of an entire town is a heavy burden, and the semi-final match is the catalyst for a violent act that will leave a young girl traumatized and a town in turmoil. Accusations are made and, like ripples on a pond, they travel through all of Beartown, leaving no resident unaffected.</p> <p>Beartown explores the hopes that bring a small community together, the secrets that tear it apart, and the courage it takes for an individual to go against the grain. In this story of a small forest town, Fredrik Backman has found the entire world.</p>

Totally toxic By Honor Head	<p>(4 books) Humans have only lived on Earth for approximately 200,000 years, yet we have created quite a dent in the well-being of the planet. Toxins have found their way into every aspect of our environment, from the water we drink to the air we breathe. In this edgy series, readers are asked to face the truth about the ongoing damage that is being done by people on a corporate, private, and individual scale. These unique volumes invigorate the budding environmental activist with in-depth information and close-up looks at the repercussions of toxins on Earth.</p> <p>1 copy each: Poisoned forests -- Poisoned oceans -- Poisoned rivers and lakes -- Poisoned wetlands</p> <p>Suggested uses: Grade 4 - Habitats and communities (HC), Grade 7 - Interactions within ecosystems (IE)</p>	KIT 363.7 HEA	Gr. 4-7
We are all connected By Brenda Boreham	<p>(10 books) "we are all connected" is a series that explores how we all live together in a shared balance upon Mother Earth. Each book explores a specific ecosystem with a focus on one animal and its adaptations for survival within that ecosystem. Indigenous interviewees, each living in one of these same areas, have responded to strategic questions as to how their community interacts with the same land, their traditional territory. Explore each text with a sense of inquiry in mind.</p> <p>1 copy each: Earth, our home., The -- Earth, we share., The -- Coast Salish, coastal rainforests and cougars -- Haisla, rivers and Chinook salmon -- Inuit, tundra and ravens -- Lakota, mixed grasslands and bald eagles -- Metis, wetlands and mallards -- Nisga'a, ponds and leopard frogs --</p>	KIT 577.27 BOR	Gr. 4-7

<p>Teen guide to student activism By Stuart A. Kallen</p>	<p>Includes bibliographical references and index. Students make a difference -- Turning tragedy into action -- Taking action -- Know your rights -- The public response -- Learning from the past</p> <p>The student-led March For Our Lives movement, formed in the wake of the mass shooting at Marjorie Stoneman Douglas High School in Florida, captured widespread attention in 2018. The raw emotion and eloquence of these student activists have made a strong impression on the nation and the world. Many other students in cities and towns all across the country have taken on other causes. Whether their efforts are local or global, whether they generate headlines or not--all of these student activists seek to create a better world for themselves and others. Teen Guide to Student Activism features stories about teens who are making a difference and shows other teens how they can do the same. The book discusses organizing, reaching out, and student rights. It also features insights from student activists about the challenges of balancing school and activism and the many lessons learned from their own activities and from earlier activists. The book includes many fully</p>	<p>371.8 KAL</p>	<p>Gr. 9-12</p>
