

Cher Bloom—Subdivision 4

I grew up on a farm in the Canwood area, graduating from the Canwood School in 1994. In 1996, I graduated as a Dental Therapist from the National School of Dental Therapy in Prince Albert. From there, my husband Curtis and I relocated to La Ronge for a Dental Therapy position with Northern Health, as it was known at that time. He was able to begin his electrical apprenticeship there as well.

Besides La Ronge, my work as a Dental Therapist took me throughout the north with travels to Uranium City, Stony Rapids, Pinehouse Lake and Weyakwin regularly. We remained in La Ronge until 2002. We had two children while there, a son, Jacksen, born in 1999 and a daughter, Makenna in 2001.

In 2002 we decided to move back to the Shellbrook area. It was at that time that Curtis started his own electrical contracting company, Livewire Electric. In August of that year, I began as an instructor back at the National School of Dental Therapy. I remained there until I started work at the Shellbrook Dental Clinic, where I still work part time.

My son and daughter spent their entire school years in Shellbrook and are currently studying in their post-secondary careers as a Primary Care Paramedic and a Diagnostic Medical Sonographer, respectively.

With education always being important to me, I decided to put my extra time as an empty nester towards something I am passionate about and run as school board trustee for the Shellbrook/Wildrose area.
