

Barry Hollick

I am seeking re-election to the Board because I believe my educational background and professional experience are valuable assets for effective school division governance.

I attended the University of Saskatchewan where I received my B.A, B.Ed., and M.Ed. degrees. During my professional career, I served in leadership roles with the local Teachers' Association, the Saskatchewan Teachers' Federation, and the Canadian Teachers' Federation. I also served as a member of the University of Saskatchewan Senate for six years.

I have had the honour of serving as Board Chair since 2011. A highlight of 2019 was when our Board received the Premier's Award for Innovation and Excellence in Education. In March, when schools were closed alternate instructional methods had to be put in place and careful planning began for a safe return to school for students and staff.

I hope I can count on your support.
