

Brent Zbaraschuk

I believe vibrant and innovative schools are essential to the future of our children and community. Parents, teachers, students and taxpayers all have important roles in shaping productive young adults.

I believe we need to face the challenges of our school division head on. This includes relevant strategic planning to ensure our teachers have the resources they need, meaningful professional development for our staffs, technology to be proud of and prudent capital investments into our schools. I will commit to work on increasing graduation rates as well to increasing the number of Educational Assistants in our classrooms.

With my own two children attending the Sask. Rivers School Division, I am committed to serving the school community as well as all our students.

I will be a strong advocate for your child's needs. On November 9th, I ask for your vote,
