2. Responsible decision-making, self-assertiveness and the sexuality theme of abstinence will receive primary emphasis at all ages.
3. The implementation of the sexuality unit, among other topics includes proper contraception skills, issues leading to and implications of high risk behaviour and strategies promoting the reduction of high risk behaviour.
4. The delivery of the Human Sexuality program will be age appropriate and presented in a timely and sensitive manner.
5. Teachers shall inform parents about the program (commencement/completion dates, objectives, scope and sequence of content, resources, and activities) and give them the opportunity to ask questions, get clarification, and express concerns. This dialogue can occur during a school-wide public meeting or through individual classroom teachers.
6. Parents shall be given the opportunity to opt out of all or part of the Human Sexuality unit. The withdrawal shall be expressed in writing.

8. Respect of all students' personal and family beliefs regarding family life and human sexuality will be the foremost objective. The primary response to a student who raises a controversial issue will be to refer that student to family to clarify personal and family beliefs. Further counsel offered to a student will be considered only with expressed, written parental/guardian consent.
