

ADMINISTRATIVE PROCEDURES MANUAL

Saskatchewan Rivers Public School Division

This Administrative Procedures Manual is designed to be the primary written source of administrative direction for the Division. It is designed to be entirely consistent with the Board Policy Handbook, and is an extension of policy in the form of procedures. This Manual may make further reference to other detailed administrative documents that have been developed to provide specific guidelines on selected matters.

There are five categories in which administrative procedures are placed in the Manual. The categories are:

- 100 General Administration
- 200 Instructional Programs and Materials
- 300 Students
- 400 Personnel and Employee Relations
- 500 Business Services
- 600 Facility Services
- 700 Transportation Services
- 800 Technology Services

Procedures placed in the 100 section are those of a general administrative nature or those which have applicability to at least two other categories in the Manual. The procedures in 200, 300, 400, 500, 600, 700 and 800 are specific to each of the titles.

A logical flow of procedures is attempted in the categories. For example, criteria for student admission is followed by attendance area requirements, by various safety considerations, by the maintenance of records, by daily attendance, by supervision and discipline, and lastly, by evaluation procedures.

Gaps in the numbering sequence facilitate the insertion of additional administrative procedures that may be developed at a future time.

ACCOUNTABILITY REPORTING

Background

The Director Evaluation Process Criteria and Timelines as detailed in Appendix A of Board Policy 12 – Board Delegation of Authority requires that the Director provide the Board with evidence that the roles delegated to the Director have been completed in an appropriate manner and have achieved the desired results. Accountability reporting is one means employed to provide such evidence. Other means include reports from external sources such as an external auditor and direct Board observations. The Board Annual Work Plan in Policy 2 – Board Annual Work Plan Appendix A indicates when each required accountability report will be presented to the Board for review and assessment.

Procedures

The Director will assign responsibility for each accountability report. The administrator assigned such responsibility shall be responsible for analyzing objective and subjective data and trends, researching current realities and options, taking appropriate actions to achieve desired results and reporting results.

1. A draft report must first be submitted to the Director for review. The report will then be submitted for inclusion on the Board agenda as noted in the Board Annual Work Plan for Board assessment as to whether the quality indicators have been achieved. Since accountability reporting is a significant component of the Director's evaluation evidence it is the responsibility of the administrator assigned to each accountability report to ensure timelines are met and sufficient opportunity for Director review and redirection is provided.
2. Where deficiencies are identified by the Board the administrator shall remediate them in a timely fashion to the satisfaction of the Director.
3. The format for accountability reports shall be as follows:
 - 3.1 Identification of source documents which have created the required accountability. This usually will reference a policy or policies from the Board Policy Handbook.
 - 3.2 A description of how the required accountability has been met. This will typically include quantifiable data which allows comparisons to Division results over time and to external standards where appropriate.
 - 3.3 Identification of administrative issues and challenges which are related to the area of accountability and actions being taken or required.
 - 3.4 Identification of any governance issues related to the area of accountability. These clearly are areas which are the responsibility of the Board as defined in the current Board Policy Handbook, legislation, collective agreement or contract.
4. Accountability reporting will form part of the evaluation criteria for individuals assigned such responsibility.

SCHOOL COMMUNITY COUNCILS

Background

School Community Councils (SCC) are an integral, purposeful and valued component of the Saskatchewan Rivers School Division.

A SCC shall be established at each school in the school division.

In many schools, committees have been established to support specific activities such as graduation or the band program. The SCC shall act in a coordination role for committees operating in support of the SCC and the school program.

School Community Councils wishing to merge should make application to the Board. The Board may then recommend to the Minister of Education that the applicant SCC be merged.

Procedures

1. Representative Members

1.1 Representative Parent and Community Members

The following individuals are eligible to run to become a representative parent and community member:

Parents of students who are enrolled in the school (including parents who do not reside within the attendance area of the school); and, electors that reside within the school attendance area. These provisions specifically do not limit or restrict the election or participation in voting of parents of students who may be employed by the School Division and work in the particular school.

The constitution of each SCC outlines the number of representative Parent and Community Members. The number of Representative Members range from 5 to 9 persons, of which the majority must be parents of students attending the school.

1.2 Representative Secondary Students

For schools offering a Grade 10, 11 and 12 program, the SCC constitution outlines the number of Student members (1 or 2). Student representatives will be selected by the Student Representative Council (SRC) for a one year term.

1.3 Representatives from First Nations

The constitution of each SCC will outline which, if any, First Nation representatives are members of the SCC. First Nations are eligible to have representatives on the SCC if there are students who live on reserve and attend a school within the Saskatchewan Rivers School Division. The First Nation will select one representative member for a two year term.

2. Permanent Members

2.1 The principal;

2.2 A teacher

The teacher member will be appointed by the principal. It is acceptable for various teachers to share this role on a rotating schedule.

2.3 Other Permanent Members

The constitution of the SCC outlines Other Permanent Members as suggested by the SCC and approved by the Board as per legislation.

3. Election Procedures

One-half of the representative Parent and Community Members of SCCs will be elected each year. In the first year, one-half of the members should be elected for two-year terms with the remaining representative members being elected for one-year terms to establish the staggered terms.

Upon the recommendation of the each principal, the Division will appoint an employee, other than any member of that school community council, to be returning officer for the election of members of the school community council. The superintendent responsible for the SCCs will act as returning officer for the school division. This role involves ensuring a returning officer is selected for each school and the appropriate training has been delivered.

Election procedures for Representative Parent and Community Members are outlined in the [School Community Council Election Manual](#).

If, following the nomination process, there are vacant positions on a SCC, the Board can reduce the number of members of that SCC. However, if there are fewer than five (5) members, the Director can appoint members to fill the vacant positions.

For the initial election no special procedures will be used to ensure the Representative parent and community members are representative of the student population. If following the initial election some SCCs are not representative of the student population, this concern could then be addressed through an amendment to this procedure.

4. Constitution

An initial constitution was developed for each SCC. The SCC may amend its constitution by sending suggestions for change in writing to the Board.

5. Operations

A SCC shall meet at least five times each year, have an annual general meeting and meet any other time at the call of the Chairperson. Minutes of each SCC meeting will be kept and made available to school trustee upon request.

The SCC will prepare an annual budget. All SCC funds will be administered by the school principal and secretary using procedures outlined in the [School-based Funds Operation and Procedures Manual](#).

6. Roles and Responsibilities

Undertake activities to enhance its understanding of the community's economic, social and health needs, aspirations for pupils' learning and wellbeing, and resources and supports for the school, parents, guardians and community.

SCC participate in the Continuous Improvement Framework by focusing on the same outcomes that are established by the province, the school division and each school represented by the SCC. For example, if the school has a focus on improving student literacy, the SCC will consider ways of assisting parents and the community to improve student literacy.

School Community Councils will communicate annually to the parents, guardians and community members about its plans, initiatives and accomplishments;

School Community Councils will account publicly for the expenditure of funds related to the operation of the school community council;

Members of SCCs will participate in orientation, training, development and networking opportunities in order to enhance its capacity to fulfill its responsibilities; and,

Members of SCCs will not discuss or be given access to personal confidential information about or complaints about any pupil, family member or guardian of any pupil, teacher, administrator or other employee of or member of the Board.

School Community Councils may provide advice on certain matters including:

- Advice and recommendations to the Board respecting policies, programs and educational service delivery, including fundraising, school fees, pupil code of conduct, grade discontinuance, school closure, religious instruction, and language of instruction but not including educational service delivery by a specific teacher;
- Advice to the school staff respecting school programs; and,
- Advice to other organizations, agencies and governments on the learning needs and well-being of pupils.

7. Support

7.1 Senior Administrative Contact

A Superintendent shall be assigned duties to facilitate the SCC, supervise the election process and plan and implement Division-wide development opportunities for members of SCCs. If an individual SCC wishes to see a Superintendent, the principal will invite the Superintendent responsible for that school to become involved.

7.2 Financial Support

The Board will provide an annual grant to each SCC.

8. The Board will support SCC through an annual grant of \$1,800.00.

8.1 The CFO is responsible to ensure that grants to parent groups are paid in accordance with Board motions and administrative procedures.

8.2 The CFO is responsible for authorizing all grant payments to parent groups.

8.3 The Hutterite school SSC allocation will be 1/10 of the annual grant.

9. A grant in the amount of \$1,800.00 shall be paid to each SCC operating within the

Division.

The grant will be paid to the school upon receipt of a year-end financial report, in the format determined by the Education Centre.

The SCCs are consolidated with the schools' banking and accounting processes. The school principal and secretary will administer the Council's funds based on existing policies, procedures and reporting methods.

 - 6.7 Indicate who will accompany and handle the service dog both inside and outside the school and what arrangements have been made with regard to alternate handlers when necessary;

Administrative Procedure 152 – Appendix B

THERAPY DOG PLANNING CHECKLIST

The principal provides a copy of *AP 152 Therapy Dogs in Schools* and this checklist to the therapy dog handler and reviews the documents together.

The principal receives proof from the therapy dog handler of training certification, up-to-date vaccinations, dog license, and proof the dog is in good health and forwards this information to the Superintendent of Schools.

The principal shares the rationale for the inclusion of a therapy dog with staff, invites staff input around planning considerations based on students in classes where the therapy dog may be present, and gathers information regarding allergies, phobias, or other concerns. A therapy dog may be excluded from the school or parts of the school when there is a risk to the health or physical and/or mental well-being of students or staff

The principal sets up a team meeting to discuss concerns or questions brought forward by the staff. Target classrooms and students should also be discussed.

A planning meeting with the therapy dog handler should be arranged with the following discussed:

- The purpose and function of the therapy dog and the support it will provide students in areas such as the following: anxiety, self-regulation, trauma, social skills, compassion and empathy, self-esteem, memory, problem solving, and/or motivation to move.
- Clarification that the handler is solely responsible for the overall care and any costs associated with the therapy dog.
- Plan for personal care of the therapy dog during the school day including bio breaks and disposal of waste.
- Plan for educating the school staff on the role of the therapy dog and the rules of conduct concerning interactions with the dog. Include plans for classroom and other areas of school such as hallway and recess if applicable. Consider routines that need to be established and expectations/rules of conduct for students and staff around the therapy dog.
- Discuss which areas of the school the therapy dog will have access to and what entrance will be used.
- Discuss dates/plan for integration of the therapy dog to the school and/or classes.

The principal will ask the therapy dog handler to complete the Agreement for Therapy Dog Service and will forward a copy to the Superintendent of Schools.

Once the plan to integrate a therapy dog has been established, the principal will send a letter home to parents/guardians of students in the school to inform them, and offer to answer questions or address any concerns. The principal will also inform the School Community Council.

Arrange for the therapy dog to first visit the school when students are not present in order to familiarize the dog to the school site and facilitate planning

Collaborate with the handler to develop an appropriate emergency plan that will include a plan for evacuation, lock down, fire drills, and any other relevant procedures

Ensure signage is placed on each entry door of the school to inform visitors of the presence of a therapy dog (Please be aware a Certified Therapy Dog may be present in our school to support various student learning and well-being goals).

Monitor and review documentation annually to ensure that all certification, vaccination, licenses, and agreement is updated.

Maintain open communication with parents/guardians, staff, and School Community Council to proactively address concerns as they arise.

TEMPORARY EXCLUSION OF STUDENTS FOR SAFETY OR MEDICAL REASONS

Background

In the process of accommodating students with a disability who have medical restrictions, a temporary exclusion from school may need to be enacted until the division receives appropriate medical information clearly setting out any medical restrictions faced by the student, and the student is stabilized and able to access an education. The division will do the following to support this accommodation process:

- Consult with parents or guardians, staff, and students, as well as any outside agencies that may be involved, on an ongoing basis to ensure that learning occurs in a safe, orderly, and nurturing environment.
- Collaborate with medical professionals and agencies to identify medical restrictions in determining accommodations for students.

 - 3.2.1. Use [Appendix A - Physician's Report: Student's Medical Restrictions](#) as the initial request for information;
 - 3.2.2. The school division may require additional medical information in order to clarify or provide details with regard to the medical restrictions

or if the medical information initially supplied is not sufficient to identify the medical restrictions requiring accommodation.

- 3.3. The ways in which they can provide input to the plan so that the school can best prepare for the safe return of the student; and
 - 3.4. The ways in which educational supports may be available during period of exclusion.

COMMUNICABLE DISEASES

Background

The Division believes it has a responsibility, to the extent possible, to protect students and staff from risk of contagion by communicable diseases.

In the course of providing protection from communicable diseases, the well being and rights of all students and staff shall be duly considered.

Communicable diseases are defined as follows: [Public Health Communicable Diseases List, PA Parkland Health Region Information](#)

- *Category I diseases includes, among others, those that are common and can often cause large outbreaks. These include Pertussis, Measles, Hepatitis A, influenza, etc.*
- *Category II diseases include Tuberculosis, Hepatitis (B, C and D), Sexually Transmitted Diseases (STD's), and Human Immunodeficiency Virus (HIV).*

Procedures

1. Through the principal, school staffs shall be required to notify the local Medical Health Officer as soon as possible but within 48 hours if they become aware that someone has a communicable disease, [Public Health Act](#), 1994.
1. In like manner, the Medical Health Officer has a responsibility to notify the school administrators of the existence of communicable diseases within schools.
2. In the event that a student or a staff member is infected with a Category I communicable disease which may present a significant health risk to others if transmitted, or where school officials have a reasonable basis to believe that a student's or a staff member's physical condition may pose a significant health risk to others, said student or staff member will be required to undergo a medical assessment by a physician at the Division's expense, if necessary, to determine the nature of the student's or staff member's physical condition and the extent of any health risk to others as a result thereof. Such medical exam shall be undertaken with all due haste. If there is any communicable disease present the physician will notify the Medical Health Officer according to the provisions of the *Public Health Act, 1994* and provide a medical certificate to the Director stating whether the physical condition or behaviour of the student or a staff member poses a significant threat to the health and welfare of the students or staff of the Division.
3. In the event that the physician examining a student or a staff member determines, in consultation with the Medical Health Officer, that the physical condition or behaviour of the student or staff member poses a significant threat to the health and welfare of the students or other staff of the Division.
 - 4.1 The student will be required to withdraw from attendance at school and shall not be readmitted to school until the Medical Health Officer has determined that the student's condition no longer poses a risk of contagion in the school environment.

- 4.2 The staff member will be placed on a leave for medical reasons until the Medical Health Officer has determined that the staff member's condition no longer poses a risk of contagion in his/her working environment. Such medical leave will qualify the staff member for any sick leave compensation to which he/she may be entitled by virtue of his/her employment contract with the Division.
4. The superintendent responsible for human resources is hereby authorized to seek medical advice to determine if there is a reasonable basis to believe that a medical examination may be required of a student or a staff member and to direct that such an examination be performed.
5. Staff:
- 6.1 Upon receipt of a medical diagnosis that a staff member has a Category II communicable disease, the superintendent responsible for human resources shall inform the local Medical Health Officer of the situation. The Medical Health Officer shall be requested to consult with the staff member's attending physician.
- 6.2 Dissemination of information regarding the affected staff member shall be determined by the patient's physician. Such health information as is held by the Division will be treated in confidence and not shared without the written consent of the staff member.
- 6.3 A staff member infected with a Category II communicable disease shall not be prevented from working for the Division except on the recommendation of the Director, following consultation with the Medical Health Officer and the staff member's attending physician.
- 6.4 When an infected staff member is excluded from his/her usual place of employment, every attempt shall be made to provide alternate employment. Decisions regarding appropriate settings shall be made on a case by case basis.
- 7.1 Students:
- 7.2 Upon receipt of a medical diagnosis that a student who is enrolled or seeking enrolment in the School Division has a communicable disease, the appropriate superintendent shall consult with the Local Medical Health Officer. The Medical Health Officer shall be requested to consult with the student's parent(s) or guardian(s) and the attending physician.
- 7.2 Dissemination of information regarding the infected pupil shall be determined in consultation with the local Medical Officer or the Medical Health Office nurse responsible for Communicable Diseases. Such health information as is held by the Division will be treated in confidence and not shared without the written consent of the parent or guardian.
- 7.3 A student infected with a Category II communicable disease shall not be excluded from the regular educational program except on the recommendation of the Director following consultation with the Medical Health Officer and the student's attending physician.
- 7.4 When an infected student is excluded from school, every attempt shall be made to provide an alternate educational program. Decisions regarding appropriate educational settings shall be made on a case by case basis.
8. Precautions:
- 8.1 The principal shall review with teachers appropriate ways of educating all students about the proper ways of dealing with potentially infectious agents, and specifically in standard (universal) precautions against exposure to blood and body fluids. In each school a definite plan shall be articulated by the principal so that all students

and all other staff in the building on a regular basis, will know the expected means of dealing with potentially infectious body fluids such as blood, vomit, or other secretions.

- 8.2 As a matter of course, open lesions on an individual who requires attention shall be covered using established first-aid procedures.
- 8.3 Any caregiver shall avoid unprotected exposure to blood or body fluids by taking adequate precautions (e.g. wearing rubber gloves, etc.).
- 8.4 A supply of disposable gloves will be distributed by the Education Centre to all schools and kept in a place designated by the principal so that they are available to be worn when needed by a caregiver.
- 8.5 Gloves must be worn if open lesions are present on the hands of any caregiver. These gloves must be immediately disposed of by discarding them into a plastic bag, along with any materials used in the clean-up of a spill of body fluids, if that material has not been satisfactorily disposed of by flushing into a school's sewage system. In any event, the soiled gloves and residue from the clean up will be sealed in a plastic bag and placed, by the staff (not a student) or a custodian, in an appropriate place for refuse collection.
- 8.6 Good hand-washing, using hot water and soap shall be an established practice for all caregivers, staff and students.
- 8.7 Any soiled surfaces shall be cleaned with a disinfectant such as Javex, or its equivalent, diluted one part bleach to nine parts water.
- 8.8 Whenever possible, disposable towels or tissues shall be used in the clean up.
- 8.9 Mops shall be rinsed in a solution of disinfectant as indicated in No. 8 above (or Hydrox). Disinfected and rinsed mops shall be stored dry rather than being left in a solution.

Administrative Procedure 160

DISCRIMINATION/HARASSMENT/WORKPLACE VIOLENCE

Background

The Division believes that every employee is entitled to employment free of discrimination, harassment, and workplace violence. The Division has a responsibility, insofar as reasonably practicable, to ensure that no employee will be subjected to discrimination, harassment, or workplace violence with respect to any matter or circumstance arising out of employment.

Discrimination, harassment and workplace violence constitute a disciplinary infraction that shall be dealt with through the appropriate measures. Disciplinary actions for violations will take into consideration the nature and impact of the violations. Appropriate measures could range from written reprimands up to and including termination.

This Administrative Procedure does not restrict or inhibit the right of employees to file a complaint with other authorities such as the Saskatchewan Human Rights Commission and Saskatchewan Labour, Occupational Health and Safety Branch. In the event of a conflict between any provision of this administrative procedure and applicable law, the applicable law shall apply.

This Administrative Procedure outlines the procedures to be followed regarding allegations of discrimination, harassment, and workplace violence so that employees will know that complaints will be treated in a confidential, consistent and effective manner and that incidents may be reported without fear of retaliation or reprisal.

Procedures

1. Definitions

- 1.1 **Discrimination:** is unfair action taken against others because they belong to a certain group. It denies people benefits and opportunities that are necessary for a decent life. Discrimination can flow from prejudice, negative stereotypes, or a failure to consider the needs of others.

It is against the law for someone to discriminate in the workplace based on the prohibited grounds including race or perceived race, creed, religion, colour, sex, sexual orientation, marital status, family status, disability, physical size or weight, age (over 18 years), nationality, ancestry, place of origin or receipt of public assistance

- 1.2 **Harassment:** is defined as any inappropriate conduct, comment, display, action or gesture by a person that either:
- 1.2.1 Is based on any of the prohibited grounds of discrimination; or
 - 1.2.2 Has a lasting, harmful effect on the employee that adversely affects the worker's psychological or physical well-being and that the person knows or ought reasonably to know would cause a worker to be humiliated or intimidated; or

1.2.3 Constitutes a threat to the health and safety of the worker.

To constitute harassment there must be:

- Repeated conduct, comments, displays, actions or gestures must be established; or
- A single, serious occurrence of conduct, or a single serious comment, display, action or gesture that has a lasting, harmful effect on the worker must be established.

Harassment does not include any reasonable action that is taken by an employer, or a manager or supervisor employed or engaged by an employer, relating to the management and direction of the employer's workers or the place of employment.

1.3 Sexual Harassment: is a form of discrimination. It is unwarranted sexual conduct that interferes with rights guaranteed by [The Saskatchewan Human Rights Code](#). It may be verbal, physical or visual. It may be one incident or a series of incidents. It is always unsolicited and unwelcome behaviour, and can take many forms.

1.4 Workplace Violence: means the attempted, threatened or actual conduct of a person that causes or is likely to cause injury, and includes any threatening statement or behaviour that gives an employee reasonable cause to believe they are at risk of injury.

1.5 Personal Harassment or "Bullying": is an extreme form of workplace violence. It is a form of non-physical violence which can lead to physical violence. It is psychological warfare. It is intended to intimidate, offend, humiliate, degrade or demean. Sometimes it's directed at one employee; at other times it's not aimed at anyone in particular but is part of generally hostile behaviour that has a toxic effect on the workplace. The "bully" can be a supervisor or any other employee and is not gender specific.

2. Scope

2.1 This administrative procedure applies to all employees.

2.2 Not only during working time, but to any activities on or off school division premises which could reasonably be associated with the workplace.

3. Responsibility

3.1 All employees, and particularly employees in management and supervisory positions, are responsible for ensuring discrimination; harassment and workplace violence are not tolerated and, where possible, are redressed.

3.2 Any employee who becomes aware of situations where discrimination, harassment or workplace violence may be occurring is requested to notify their manager or supervisor and proceed through the concern protocol in Administrative Procedure 153.

3.3 All employees are responsible for being sensitive to the impact as well as the intent of their actions and are required to: refrain from participating in discrimination, harassment and workplace violence; and cooperate with any person investigating and /or seeking to resolve complaints filed under this policy.

3.4 Managers and supervisors are responsible for providing a work environment that is free from discrimination, harassment and workplace violence. This responsibility includes actively promoting a positive, harassment-free work environment and intervening when problems occur. Additionally, managers and supervisors are responsible for dealing with inappropriate actions of others that come to their attention.

4. Confidentiality
 - 4.1 All complaints will be handled in a confidential manner with the understanding that respondents named in a complaint have the right to know the allegations being made against them.
 - 4.2 The investigation will be limited to only those individuals who must be contacted to fulfill the Employer's legal duty to investigate and to resolve the situation.
 - 4.3 Those involved in the investigation are prohibited from discussing the complaint outside the official restorative or investigative process. Breaches of confidentiality may result in disciplinary action up to and including termination.
 - 4.4 Information concerning a complaint, or action taken as a result of the investigation, will not be released to anyone who is not involved with the investigation.
 - 4.5 Notwithstanding the above clauses, information relating to the investigation may be subject to subpoena for court, legal or arbitral purposes.
5. Correspondence
 - 5.1 All correspondence and reports relative to alleged infraction(s) shall be held separately in a confidential file to be retained by the Manager of Human Resources.
 - 5.2 If allegations are not supported, the file shall be destroyed one (1) year after the person in authority's ruling is rendered.
 - 5.3 If the investigation supports the allegations, copies of all supporting documentation shall be placed on the offender's personnel file in a sealed envelope with restricted access.
6. Unsubstantiated Complaints
 - 6.1 Where a complaint has not been substantiated, no action will be taken against an employee who has made a complaint in good faith. It is important to note that an unproven allegation does not mean that discrimination, harassment or workplace violence did not occur or that there was a deliberate false allegation. It simply means that there is insufficient evidentiary basis to proceed or that while the complainant may have genuinely had reason to believe that there was discrimination, harassment or workplace violence, investigation has not borne out the complaint
 - 6.2 If, upon investigation, it is found that false accusations were made knowingly and with malice, the Director may impose disciplinary action upon the employee making the false accusations up to and including termination.
7. Steps to Follow
 - 7.1 Step 1: Individual Problem Solving and Resolution

Employees are encouraged to attempt to resolve their concerns by direct communication with the person(s) engaging in the unwelcome conduct.

 - 7.1.1 Where employees feel confident or comfortable in doing so, clearly make known to the person(s) whose conduct or comments are offensive that the behaviour is objectionable and must stop.
 - 7.1.2 Keep a written record of the date, time, details of the conduct, and witnesses, if any.
 - 7.1.3 If resolution is achieved, both the complainant and the respondent should keep a record of the agreed-to resolution.
 - 7.2 Step 2: Management Support and Intervention

Employees who are not confident or comfortable with Step 1 and who believe they are victims of discrimination, harassment or workplace violence, or become aware of situations where such conduct may be occurring, are encouraged to report these matters to any of the following: the employee's manager or supervisor, the Manager of Human Resources, or the Director.

7.2.1 The person in authority who receives an informal verbal complaint shall take action to ensure the complaint is addressed, or at minimum is being investigated, within ten (10) working days from the date the complaint was received.

7.2.2 The person in authority shall take the following actions:

7.2.2.1 Provide the complainant and respondent with information regarding discrimination, harassment, or workplace violence.

7.2.2.2 Discuss issues of confidentiality and limits to confidentiality when a complaint is received.

7.2.2.3 Attempt to bring resolution to the situation by:

- Assisting the complainant in speaking to the respondent directly; or
- Speaking to the respondent directly on the complainant's behalf to outline the allegations and attempt to resolve the complaint informally; or
- If both parties are willing to enter into voluntary mediation, the person in authority shall act as or appoint a neutral third party acceptable to both.

7.2.2.4 If an acceptable resolution is achieved, the person in authority shall monitor the status of the resolution to ensure it is satisfactorily implemented and maintained.

7.2.2.5 If an acceptable resolution is not achieved, a formal investigation may be initiated.

7.2.2.6 As part of the Step 2 process the following documentation will be held separately in a confidential file:

- The names of the complainant and respondent;
- The nature of the alleged infraction;
- A record of all meeting dates and attendees; and
- The present disposition of the complaint.

7.3 Step 3: Formal Complaint

If informal attempts at resolving the issue are not appropriate, or proving to be ineffective, a formal complaint may be filed. To file a formal complaint:

7.3.1 Provide a letter of complaint that contains a detailed account of the offensive incident(s) including:

7.3.1.1 Name of Complainant.

7.3.1.2 Home and Work phone numbers of the complainant.

7.3.1.3 Type of Harassment (on what prohibited grounds did the harassment occur).

7.3.1.4 Respondent: alleged harassers' name.

7.3.1.5 Details of the complaint, including:

- Dates, times and location of each occurrence;
- The persons involved, and names of witnesses, if any
- What has been done in response to the behaviour;
- Has the respondent or another appropriate person been advised that the behaviour is objectionable and must stop;
- Any other details of the incident(s); and

- The remedy sought.
 - 7.3.1.6 The formal written complaint must be signed and dated by the complainant. By signing a formal complaint, the complainant is agreeing to have the actual complaint provided to the respondent.
- 7.3.2 A formal complaint is to be filed with the Manager of Human Resources.
 - 7.3.2.1 The person receiving the complaint, if other than the Director, shall immediately report the complaint to the Director.
 - 7.3.2.2 In the event the Director is the subject of the complaint or is the complainant, the person receiving the complaint shall report it directly to the Board Chair who shall immediately bring it to the attention of the Board.
 - 7.3.2.3 The Manager of Human Resources shall facilitate investigation of the complaint immediately upon receipt of the complaint. This may include:
 - Contracting out the investigation;
 - Appointment of an out-of-scope staff member; or
 - Investigation by the Manager of Human Resources.
 - 7.3.2.4 In the event the Director is the subject of the complaint or is the complainant; the Chair of the Board shall appoint another person to be in charge of the investigation.
- 7.3.3 The person who investigates the complaint shall ensure that the following is completed:
 - 7.3.3.1 Notify and provide a copy of the complaint to the respondent;
 - 7.3.3.2 Request the respondent to respond in writing to the complaint;
 - 7.3.3.3 Interview the complainant, the respondent and any relevant witnesses (witnesses must be informed that the evidence provided will be shared with the complainant and respondent);
 - 7.3.3.4 Collect relevant documents or other physical evidence.
- 7.3.4 The investigator will submit a written report to the Director. The report will detail the following:
 - 7.3.4.1 The complaint;
 - 7.3.4.2 Statement of respondent(s);
 - 7.3.4.3 A list of witnesses;
 - 7.3.4.4 Witness statements;
 - 7.3.4.5 Relevant documents;
 - 7.3.4.6 Findings of the investigation; and
 - 7.3.4.7 The investigator's conclusion as to whether harassment, discrimination or workplace violence did or did not occur.
- NOTE:* The investigator's report will not include recommendations regarding disciplinary action. Disciplinary action will be determined by the Director or Board as appropriate.
- 7.3.5 Both the complainant and the respondent shall have the opportunity to have someone present to provide advice or assistance throughout the investigation.
- 7.3.6 Either party may, after receiving the results of the investigation, appeal to the Board if dissatisfied with the resolution of a formal complaint.

- 7.3.7 All records relating to the complaint and investigation shall be kept in a confidential file to be retained by the Manager of Human Resources.

resources in accordance with the fair dealings guidelines found in this agreement. Video Resources

The Copyright Act permits showing an audiovisual work such as a DVD or video as long as the work is not an infringing copy or the person responsible for the showing has no reasonable grounds to believe it is an infringing copy. Teachers can show audiovisual works purchased or rented from a retail store, a copy borrowed from the library, a copy borrowed from a friend, and a YouTube video.

Showing movies from subscription services in the classroom is governed by the terms of the agreement between the subscriber and the subscription service. 5.1 Staff members may reproduce works that are in the “Public Domain”.

Student permission is required if the student is sixteen (16) years of age or over. Permission is not required to display student work within the school.
 - 6.2.1 The principal will request and file permissions from parents/guardians at the beginning of each school year to record and/or tape their child(ren) for possible performance.

EXTERNAL SERVICE PROVIDERS IN SCHOOLS

Background

Saskatchewan Rivers Public School Division recognizes that the school, parents/guardians, and community health professionals share a common goal to pursue, within their defined roles, the best interest of the child. Hence, the school division has established guidelines and procedures to clarify the relationship between the school and public and private third party service providers when one or both of the following apply.

- Parents/guardians have retained and/or compensated such community professionals to support their child.
- Staff from another agency and/or ministry request to observe and/or work with a student at school.

Principles:

1. Schools have a) the right to determine, and b) the obligation to provide education programs and services in schools as stated in *The Education Act, 1995*.
2. Schools are responsible for ensuring a) student safety, liability, confidentiality, and supervision; and b) availability of adequate space for school-based programs and services.
3. The school is the primary provider of school-based programs and services.
4. Saskatchewan Rivers Public School Division provides a continuum of services. A description of special education programs and services is outlined on the Student Support Services webpage - [SRPSD Student Support Services](#).
5. School division staff work in partnership with parents/guardians to ensure that the needs of the child are identified, considered, and met. To that end, collaboration with community agencies and private therapists is valued.
6. Parents may decide to secure additional support for their child through community agency staff or private therapists, consultants, educators, or interventionists. When parents opt for additional support for their child, it is the parents' responsibility to arrange for these services to be offered in the home, community, or practitioner office setting.

Definitions:

Direct services are services delivered by SRPSDs staff including teachers, educational associates, Student Support Services personnel, and/or individuals contracted by SRPSD.

Third party services are services delivered by individuals from an external organization. There are two types of third party services including public and private.

- *Public third party services* are those delivered by staff from an agency or other public organization where needed and requested by SRPSD. This could also include not for profit charitable organizations. An agreement, memorandum of understanding, or contract will detail the services provided and conditions related to the provision of those services.
- *Private third party services* are those retained and/or compensated by parents or guardians. They have not been requested by SRPSD.

Procedures

1. Private third party services delivered directly to students during the instructional day are not normally permitted in the school setting.
2. Private third party professionals may, at the discretion of the school division, be permitted in schools solely for observation where a) it assists the privately retained professional or community agency staff to set appropriate goals for the child in non-school environments, and b) to ensure consistency of programming outside of the school environment.
3. The following conditions must be met before a private third party professional is permitted in a school.
 - 3.1 The parent informs the school that they have arranged private third party professional support for their child and request an in-school observation by the professional/agency.
 - 3.2 A request by a private third party professional or community agency staff to observe a student in a classroom must be made to the principal (Appendix A).
 - 3.3 The school principal will determine if the requested observation can be carried out in such a manner that:
 - 3.3.1 Will not negatively impact the educational environment.
 - 3.3.2 Will not interfere unduly with the privacy rights of other students and staff.
 - 3.4 If approved, the principal will sign to approve the request.
 - 3.5 A parent-signed SRPSD *Release of Confidential Information* form is required.
 - 3.6 The principal will determine and schedule the number and duration of third party requests in an effort to minimize the disruption to the delivery of the instructional program.
 - 3.7 Whenever a parent/guardian requests that school staff share information about their child with a private therapist or agency, the parent/guardian must complete a SRPSD *Release of Confidential Information* form. Students over 15 years of age of sufficient maturity must also sign the consent.

HOME-BASED EDUCATION

Background

The Division recognizes the right of parents to register their children in a home-based education program with the school division. The Division also recognizes that the costs of a home-based education program rest with parents who choose this form of education for their children.

Procedures

1. The superintendent responsible for home-based education will ensure that:
 - Home-based education programs are registered, administered and monitored in accordance with *The Education Act, 1995*, and Home-Based Education regulations and policy guidelines of the Ministry of Education. [Home-based Education Informational Package](#)
 - A permanent record for each home-based education program is maintained.
 - The Special Education Plan addresses services for special needs students enrolled in a registered home-based education program.
2. The Division will provide funds to each home-based learner who is registered with the school division by September 30th and continues their home-based education through to June 30th of each school year. This funding will be payable to the student's parents/guardians following the receipt of an approved Education Plan in September of each school year and **a yearend** report on or before June 30th of each school year. This funding is intended to defray some of the cost of a home-based education program and is set annually in consultation with the Administrative Council.

Home-based educators wishing to receive the home-based education grant must comply with the following requirements:

- 2.1 A Saskatchewan Rivers School Division Home-based [Registration Form](#) must be completed and submitted to the school division.
 - 2.2 An Education Plan must be completed following the guidelines in the Registration Package. The plan must be submitted to the superintendent overseeing home-schooling by the date identified in the [Home-Based Informational Package](#). Arrangements for extensions must be made with, and are subject to the discretion of, the superintendent.
 - 2.3 A **yearend** report following the division's stated requirements must be submitted to the Superintendent on or before the date identified by the school division. Arrangements for extensions must be made with, and are subject to the discretion of, the superintendent.
 - 2.4 Four hundred dollars (\$400) per school year will be granted to home-based educators for each student in grades 1 to 12 who are in compliance with the requirements cited above. Kindergarten students are eligible to receive a grant of \$200.
3. The following services will be made available to registered home-based learners:
 - 3.1 The school division will provide funds to each registered home-based learner to help defer some of the cost of a home-based education program.

- 3.2 The school division will provide a standardized test once each school year for a home-based learner if it is requested by the home-based educator. The school division will provide the home-based educator with the results of the standardized test and an interpretation of the results.
- 3.3 Instructional resources may be borrowed by home-based educators from the Teacher Resource Centre and from the school library of the home-based educator's community or neighbourhood school pursuant to borrowing and usage policy of these libraries;
- 3.4 Textbooks surplus to the school program may be borrowed from the home-based educator's community or neighbourhood school;
- 3.5 Driver training for high school aged students will be made available upon application;
- 3.6 Home-based Education students may participate in extracurricular activities providing:
 - 3.6.1 Home-based students participate as part of the school in their attendance area.
 - 3.6.2 Travel costs are born by the parent.
 - 3.6.3 Participation is limited to availability of space on teams and clubs. Opportunities to participate will only be granted if there are positions open – positions on teams of clubs will be filled first by students attending the school as regular students.
 - 3.6.4 Participation in any co-curricular or extracurricular activity can be ended at the discretion of the school principal.
 - 3.7.4 Students in Grades 9 – 12 are subject to the rules and regulations of the SHSAA.

Home-based education students begin the process of participating in school sports by contacting the school principal.

- 3.7 Home-based education students may participate in co-curricular events providing:
 - 3.7.1 Co-curricular events are activities that support the provincial curricula. Home-based education students must submit a written learning plan to the principal that identifies the learning outcomes supported by the activity.
 - 3.7.2 The supervision of the student is the responsibility of the parent.
 - 3.7.3 Fees and travel costs are born by the parent.
 - 3.7.4 Home-based students obey the rules and comply with the expectations of all students participating in the event.
 - 3.7.5 Principals have the authority to end the participation of the home-based student in any school-based activity at their discretion.

Home-based education students begin the process of participating in co-curricular events by contacting the principal.

- 3.8 Home-based students may access a needs assessment provided by the school division. The results of the assessment will be shared with the parents and/or, if appropriate, with the student along with recommendations for educational support.

4. SCHOOL FEES

Background

Saskatchewan Rivers School Division will not charge fees, levies or other costs for instructional materials and supplies required to meet the mandatory course requirements at each grade level.

The Division recognizes that a local school community may wish to enhance the learning program by having students participate in special projects, elective course offerings, extracurricular programs and field trips.

Schools may levy fees for special projects, elective courses, field trips and extracurricular activities, provided such fees are reasonable and used only for the recovery of actual costs to the school.

Guidelines

Saskatchewan Rivers School Division is committed to offering a diverse learning program to students. When fees are levied to enhance programming, this must be carefully balanced with the stated desire to provide a publicly funded education to students without charging fees. Every effort will be made to ensure additional fees levied are reasonable and do not place an undue burden on families.

Definitions

"School Fees" includes any and all fees, levies or charges levied on and payable by a student or by the student's parents for any course or any activity at the school or organized or sponsored by the school or the school division.

"Instructional Materials and Supplies" means supplies, materials, deemed by the Board of Education to be necessary to the instruction of students, including textbooks, workbooks, novels and other written materials.

"Off-site Activity" means an educational, cultural or recreational excursion away from the school taken by the students under the direction and supervision of a teacher.

"Optional Items and Events" means items or events available at or sponsored by a school which are not necessary to the instruction of students.

Procedures

1. No school fees, levies or charges of any kind may be levied by schools on students or parents, other than those set out in this Administrative Procedure.
2. In any matters related to school fees, no student will be denied access to course of instruction solely for reason of financial inability to pay the fees levied for such course and every effort will be made to safeguard the dignity of each family and to ensure the confidentiality of each situation.

3. Schools may not charge any fees for instructional materials and supplies required to meet the course of instruction for compulsory classes at each grade level, provided however, that students may be required to provide a reasonable selection of consumable instructional materials and supplies required for a course and not ordinarily provided by the Board such as paper, pencils, notebooks or personal items of a general nature. Schools may bulk purchase consumable supplies on behalf of students with a reasonable fee applied to families wishing to purchase such supplies.
4. Schools may levy student organization fees to be collected and administered by the local student representative council provided that such fees are reasonable in amount and are used solely for the purposes of the student council and its related activities.
5. Schools may charge for transportation costs and entry fees for off-site activities provided that such charges are reasonable and based on recovery of actual costs to the school.
6. Schools may charge for optional items, events or supplies approved by the principal, provided, however, that:
 - 6.1 Such charges are reasonable;
 - 6.2 Students are given the opportunity to opt out of the item or event and not pay the charges;
 - 6.3 Such items or events or activities are not compulsory in a mandatory course of instruction;
 - 6.4 The item are taken home or consumed by the student.
7. Schools may charge a fee for items that can be used by students and then returned to the school. Schools will refund the fee upon return of the undamaged item or will withhold some, or all, of the fee to cover any damages incurred. The amount withheld will be proportional to the extent of the damage and the value of the item.

STUDENT CODE OF CONDUCT

Background

The Division believes in providing all students with a safe and secure learning environment.

A safe and secure school learning environment is one that is physically, emotionally and psychologically safe, characterized by:

- Caring,
- Respect for law and order,
- Respect for democratic values, rights and responsibilities,
- Respect for cultural diversity,
- Community, family, student and staff involvement,
- Appropriate modeling by staff and students,
- Clear, consistent expectations for behavior and consequences for misconduct which are communicated to students, staff and parents.

A Division Code of Conduct as provided in Appendix A is an effective structure for providing such an environment in that it addresses the shared expectations of students, staff and parents.

Each school in the Division shall maintain a school-based Code of Conduct that is in alignment with the School Division Code.

A Code of Conduct is the foundation for developing positive behaviors in the learning environment. In general, it is rooted in the rights and responsibilities of a democratic society and in particular it reflects the values of the School Division.

Within school settings students, parents, guardians, administrators and community members interact with one another. To enable those interactions to be supportive of safe, well-ordered and welcoming environments there is a need to be aware of expectations.

- What is expected of us.
- What can we expect of others.
- The consequences we can expect if we don't act in accordance with expectations.

It is important that all adults in Division schools act in a thoughtful and responsible manner to ensure the safety and security of all young people.

It is important that all students are required to be responsible citizens and demonstrate an understanding of the relationship between their rights and their responsibilities.

The Code of Conduct in Appendix A shall be reviewed with students and staff periodically during each school year. It shall be posted in classrooms and in an area of high visibility for visitors to see.

Procedures

1. The Division's approach to discipline is based on the belief that students learn to discipline themselves if they are allowed to experience the logical consequences of their actions. Wide ranging consequences may be applied depending on the severity of each individual incident of misbehavior and the frequency of that misbehavior.
2. The expected behavior of students shall be clearly communicated to the students, the parents and the community by the principal and staff of each school.
3. Effective discipline of students hinges on a cooperative approach between school and the parent/guardian. The parent/guardian will be involved as early as possible without calling home every time a student misbehaves. The parent/guardian will be encouraged to communicate with the school to establish individual guidelines.
4. Every student's right to learn will be safeguarded through this approach to student discipline. A teacher's right to maintain a safe and orderly classroom is also safeguarded and supported through this approach. The list of consequences noted below, while generally escalating in severity, will not necessarily be followed in a lock-step fashion. In fact, some steps may be omitted, repeated or only partially applied.
 - 4.1 Informal Interview
School personnel will talk with the student to reach an agreement regarding the student's behavior. The parent/guardian may be contacted in some circumstances.
 - 4.2 Support Personnel Involvement
A conference or series of conferences will be held with the teacher and/or support personnel with the specific goal of developing a plan for changing attitudes and improving student behavior. The parent/guardian will be involved.
 - 4.3 Parental Involvement
Contact will be made with the parent/guardian to discuss the specific behavior of the student and steps which must be undertaken to change the behavior. The nature of contact will vary from a telephone conversation to a formal conference at the school with parent/guardian, student and school personnel.
 - 4.4 Formal Interview
A conference will be held with the student, the teacher and an administrator and/or guidance counsellor and the parent/guardian to develop a plan for changing the student's behavior.
 - 4.5 Withdrawal From Classroom Setting
Where specific unacceptable behavior will be deemed to have a negative impact upon the classroom learning environment, the student will be withdrawn to a supervised alternate location to complete his/her assignments. Such withdrawal will normally be temporary, but when a prolonged withdrawal is recommended, the parent/guardian will be contacted.
 - 4.6 Behavioral/Performance Contract
In some instances, the student will be required to meet specific behavioral standards in order to avoid more severe levels of consequence. Such expectations will be developed between the school, the parent/guardian and the student. Expected outcomes will be defined in order to meet the behavior standards agreed upon. Such an agreement will be documented, with copies provided for all concerned parties.
 - 4.7 Removal of Privileges
Privileges in the nature of access to playground, lunch-room, library, extracurricular activities and/or bus transportation will be removed under certain circumstances. The school administrator will ensure that the parents are notified when such removal of privileges occurs.

4.8 Detention of Student

The student will be detained within the school for specific unacceptable behavior. Where such detention occurs beyond regular school hours, appropriate arrangements will be made with the parent/guardian.

4.9 Restitution

The student and/or parent/guardian will be required to compensate for damages incurred by the student. Such restitution may be monetary in nature, but could take alternative forms such as community service.

4.10 Student Support Services Department

Student Support Services personnel will be available to assist in the development of prevention and intervention strategies. In some cases involvement may include alternate placement and/or access to treatment beyond the school.

4.11 Outside Agency Involvement

In some circumstances, the student's behavior may involve violation of the law (e.g. drugs, theft or assault) and police involvement: parents will be informed as soon as possible of any such action. Other circumstances (e.g. alleged abuse) may result in a referral to Saskatchewan Social Services.

4.12 Suspension

Suspension from school is a serious consequence which is imposed subject to Board Policy No. 14 and Section 154 of *The Education Act, 1995, 1995*. The principal shall inform their Superintendent of out of school suspensions when they occur.

4.13 Expulsion

Expulsion requires official action by the Board and is carried out in accordance with Section 155 of *The Education Act, 1995*, and Board Policy 14.

5. Staff who are not in alignment with the Code of Conduct will be referred to their supervisor for appropriate intervention.
6. Parents who are not in alignment with the Code of Conduct will be asked to meet with school and/or Division personnel as appropriate.

STUDENT ASSESSMENT, EVALUATION AND PROMOTION

Background

Maintaining a comprehensive system of student assessment and evaluation is an integral component of the teaching-learning cycle.

The intent of this procedure is to ensure that the concepts of assessment, evaluation, academic integrity and student responsibility are introduced in an age-appropriate way to all students in the school division. The procedure:

- Provides clarity regarding expectations related to assessment, evaluation, academic integrity and responsibilities to students, teachers, administrators, parents/guardians and trustees; and,
- Supports consistency in all grades and subject areas within the school division

The main purpose of assessment and evaluation is to guide and improve learning and instruction. This process comprises three distinct, yet related purposes; assessment for, assessment as, and assessment of learning.

A planned program of ongoing assessment and regular evaluation is required for all students.

Sound assessment results only when there is a clear purpose for assessment, clear and appropriate targets (as defined by curricular outcomes, proper methods, multiple sources of assessment of outcomes, and elimination of bias and distortion in measurement). (Stiggins, 2001)

All stakeholders have a responsibility to ensure growth in students' integrity, responsibility, and academic achievement.

A planned program of student placement and promotion is required for each school in the Division

Definitions:

Academic integrity is providing evidence of one's own learning through demonstration of responsibility, honesty, trust and respect. Actions such as cheating; plagiarism; having others complete the work; buying papers from the internet or resubmission of previously submitted work indicate a lack of academic integrity.

Assessment is gathering data, on a continual basis, about student learning and/or skills, either through informal methods, such as observation or through formal methods, such as testing.

Assessment as learning is assessment used as a metacognitive process involving students setting their own learning goals and reflecting on and adjusting their own learning.

Assessment for learning is assessment designed primarily to promote learning. It includes both initial, or diagnostic, assessment and formative assessment. Early drafts, first tries, and practices assessments are all examples of assessment for learning.

Assessment of learning- assessment primarily designed to determine students achievement at a given point in time. Summative assessments are assessments of learning. Report card grades should be based on a summary of data from assessments of learning.

Evaluation is the process of making judgements about student learning needs and demonstrated knowledge and/or skill.

Grading is the act of summarizing and judging assessment data for reporting purposes in the form of a letter or numerical grade

Plagiarism is the unacknowledged use of someone else's words, ideas or creations as one's own whether deliberate or accidental; it is the process of taking another person's work, ideas or words, and using them as if they were one's own.

Student responsibility is assuming responsibility for one's learning, including getting to school/class on time; attending regularly; submitting work on time; doing one's best on exams and assignments.

Procedures

1. Assessment and evaluation of student progress shall be carried out in order to:
 - 1.1 Determine student progress toward achieving the learning outcomes in each subject area
 - 1.2 Inform students, parents/ guardians, and others of current progress
 - 1.3 Increase the effectiveness of instructional strategies
 - 1.4 Increase the degree to which programming is meeting individual student needs,
 - 1.5 Enhance student progress toward achieving all learning outcomes

- 2.4.3 Align assessment with curricular outcomes, instructional practices, and learning experiences;
- 2.4.4 Use quality assessments and properly record evidence of achievement;
- 2.4.5 Base all assessment and evaluation of student achievement on the outcomes of the provincial curriculum and report student achievement based solely on achievement of curriculum outcomes;
- 2.4.6 Determine student grades using evidence and professional judgement. The grades will reflect the student's most recent achievement level with consideration given to the most consistent evidence;
- 2.4.7 Collect information which is not related to outcomes (e.g., attendance, behaviour, general attitude, completion of homework, effort) and report to complement the reported achievement related to the outcomes,
- 2.4.8 Administer standardized or other tests as determined by the Division and record data in Division database to be used for instructional planning and reporting;
- 2.4.9 Communicate expectations of students regarding timelines of assignments and plagiarism verbally and in writing (e.g., within "Classroom Expectations" or the "Course Syllabus");
- 2.4.10 Use their professional judgement to provide students who have missed deadlines due to exceptional circumstances with alternative arrangements to complete assignments. Actions related to late assignments may include the following:
- Meet with the student and parent/guardian to discuss the reasons for noncompletion and to develop a plan to complete the work;
 - Develop an agreement with the student to complete the assignment;
 - Complete the work outside of school hours such as lunchtime or after school;
 - Provide peer support for the student;
 - Provide an alternative assignment to accommodate a diverse learning need;
 - Determine a mark that reflects the level of achievement demonstrated by the student on that particular assignment; and/or,
 - Include late assignments as part of extended reporting as a complement to the reported achievement related to the curriculum outcomes.
- 2.4.11 Use his/her professional judgment to determine an appropriate course of action when a student plagiarizes, taking into account factors such as age and maturity of the student, medical status, other personal circumstances, grade level and past behaviour. Actions related to plagiarism may include the following:
- Create an open environment for discussion in the classroom, and responding to students' questions about plagiarism; and,
 - Teach students how to conduct research, properly cite information sources, use quotations in their work and develop paraphrasing skills.
- 2.5 Students will be expected to:
- 2.5.1 Reflect on and monitor their own progress toward curriculum outcomes, with the support of their teachers and parents;
- 2.5.2 Fulfill their responsibilities within the school's learning environments;
- 2.5.3 Take responsibility for their own work and avoid plagiarism; and
- 2.5.4 Submit assignments on time.

3. Student placement and promotion shall be determined on the basis that:
 - 3.1 Each school will develop an intervention protocol for students who are not experiencing academic or social success. The intervention protocol will describe:
 - 3.1.1 Classroom based adaptations, differentiation and interventions;
 - 3.1.2 Support from the school-based processes and personnel (principal, student support teacher, counselor, or others);
 - 3.1.3 Communication with and engagement of the parent; and
 - 3.1.4 Consultation with Division-based support services (coach, consultant Superintendent, or others).
 - 3.2 In the fall of each school year, the principal shall communicate the intervention protocol to the staff, students and parents in the school community.
 - 3.3 Decisions regarding student placement and promotion are informed by the protocol and are the responsibility of the principal in consultation with teachers, parents, students and others as appropriate.
 - 3.4 Elementary and Middle Years students (Kindergarten to Grade 9) shall not be retained nor accelerated without consulting their superintendent.
 - 3.5 Secondary students promotion and placement is by course and subject to the schools promotion and placement policy

REPORTING TO PARENTS

Background

Regular reporting of the progress of each student to parents and guardians is an important responsibility of teachers.

Formal reporting to parents shall occur at least three times during the course of an unsemestered school year and at least twice during the course of each term of a semestered course.

Procedures

1. Formal reporting requires that:
 - 1.1 Written reports to parents shall include but are not restricted to a formal report card. Portfolios, anecdotal records and direct student participation are seen as valid components of the reporting process.
 - 1.2 For the first and second reporting period in unsemestered settings and the first reporting period in semestered settings, an opportunity for parent-teacher interviews shall be provided.
 - 1.3 The principal in consultation with their superintendent shall determine the dates and times of report card distribution and parent interview days before informing their staff, parents and SCCs.

STUDENT CUMULATIVE RECORDS

Background

The Division believes that while it is imperative for confidentiality of student records to be maintained, there is a countervailing duty to provide reasonable access to student information when requested by individuals who have a legitimate right or need to know.

Responsibility for controlling access, maintaining confidentiality and seeing to the proper preservation of student records rests with the principal. Full and complete cumulative records must be maintained for every student within the Division.

The Cumulative Record contains a student's academic records, attendance reports, achievement reports and special reports related to the student's educational program. As the term "cumulative" implies, information is added to the record each year as the student progresses through the grades. When a student moves from one school to another, the expectation is that the Cumulative Record follows the student.

The Cumulative Record shall be the official working record for students currently enrolled in the Division. The Cumulative Record is the property and responsibility of the Division while the student attends school in this school division.

Procedures

1. To support smooth transitions and to ensure that students have the best possible opportunities for success, the Cumulative Record shall be transferred as soon as possible after a student enrolls in a new school.
2. Federal and provincial privacy and information sharing legislation shall be followed in the creation, maintenance and use of Cumulative Records.
3. All personal information is subject to the provisions of *The Local Authority Freedom of Information and Protection of Privacy Act* [LAFOIPP](#)
4. Every student in the Division shall have a Cumulative Record.
5. The Cumulative Record shall be the property and responsibility of the School Division until the student transfers to another division or the record is destroyed according to disposal schedule. Refer to AP 185 – Retention and Disposal of Records.
6. The Cumulative Record shall contain at minimum the following:
 - 6.1 The student's name as registered under *The Vital Statistics Act, 1995* or, if the student was born in another jurisdiction, the student's name as registered in that jurisdiction;
 - 6.2 Other names by which the student is known;
 - 6.3 The birth date and gender of the student;
 - 6.4 The student's provincial Learning Identification Number (DEN);
 - 6.5 The name(s), address(es) and telephone number(s) of the student's custodial parent(s) or guardian(s);

- 6.6 The names of other parents/guardians who may have custody orders that restrict access to their child or the child's personal information;
 - 6.7 A summary or report of achievement along with a summary of attendance at the end of each grade or semester; term progress reports may be included;
 - 6.8 The student's results of diagnostic tests or other assessments pertinent to program planning, including but not limited to psychological reports, speech and language pathologists' reports, occupational therapists' reports, etc., including related parental consent forms;
 - 6.9 For a student who has an Inclusion and Intervention Plan (IIP) as described in the Children's Services Policy Framework, a copy of the current and previous plan.
 - 6.10 A notice of the existence of a Violence Threat Risk Assessment, if one has been administered within the last five years, using the SRPSD VTRA Notification Form [Referral form](#).
 - 6.11 A copy of the most recent Student Safety Plan, if one has been created within the last five years.
7. The principal shall be responsible for the collection, maintenance and release or transfer of student Cumulative Records under the supervision of their superintendent.
 8. The classroom teacher shall be responsible for entering data in the Cumulative Record.
 9. The principal shall be responsible for managing annual updates to the Cumulative Record and removing unnecessary and outdated information.
 10. Items to be omitted or removed from the record:
 - 10.1 Scores from screening tools that assess preschool-aged children's readiness for formal learning (e.g., the Early Development Instrument and Early Years Evaluation, among others) should not follow the child through his or her school career and, accordingly, should not be retained in the Cumulative Record after Grade 1.
 11. Personal counselling notes regarding the student and information related to the student's involvement as a young offender should not be included in the Cumulative Record. Counselling notes should be stored separately by counselling staff. Provisions in Section 125(7), [Youth Criminal Justice Act](#) specify that information related to a student's involvement in the justice system should be stored separately from the student's other records in a secure location and destroyed when the information is no longer required for the purpose for which it was disclosed.
 12. Access to Cumulative Records

Given that the information is collected primarily for the purpose of providing educational services and supports to the student, only those individuals involved in delivering educational services or supports to the student should have access to the student's Cumulative Record. As well, individuals involved in overseeing the delivery of services and in meeting the Ministry of Education's reporting requirements (employees, the principal and the support person in the school/Education Centre) may require access to all Cumulative Records in their possession. Students and their parents may also have access to their Cumulative Records and may consent to have other persons access their Cumulative Records.
 13. Information contained in the permanent student record is to be readily accessible by current teachers, school administrators, and Student Support Services consultants.
 14. In all cases where access to the permanent student record is granted, access will be through the principal responsible for the record. As well, a record of access including the name of the individual granted access, date and reason for access shall be made and kept in the permanent student record.

15. Students 18 years of age or older, and parents or guardians where a student is less than 18 years of age, shall be given the opportunity to review the permanent student record upon request to the principal responsible for the record provided one day's advance notice is given. In all cases, the review shall occur in the presence of a professional staff member.

Under the *Local Authority Freedom of Information and Protection of Privacy Act* [LAFOIPP](#), the above individuals have the right to obtain a copy of the information.

16. Cumulative records may be stored at the school where the student last attended for a period of up to five years before being transferred to the Education Centre.
17. On an annual basis, cumulative records may be transferred to the Education Centre on or about the last day of school in June.
18. When students transfer to another school within the Division or other school jurisdictions, the permanent student records are to be transferred to that jurisdiction upon request by the receiving school.
19. When cumulative records are transferred to another school or jurisdiction, the principal shall ensure that the record contains only educationally relevant material.
20. When a new student arrives from an external jurisdiction, the principal is to forthwith request the cumulative records from the last school attended by the student.
21. Release of information contained in the permanent student record to third parties, including registrars of post-secondary educational institutions, external organizations and employers, is strictly prohibited, unless written authorization for information is obtained from the parents, guardians or student where the student is eighteen years of age or older. All letters of authorization for release of information shall be retained in the permanent student record. A list of such information shall also be retained.
22. Agencies with a legal mandate that require access to student records, regardless of parental/guardian approval (Health, Justice, Social Services, Public Health, Shared Services, etc.) shall be granted access provided that a written request is made which includes the legal basis for claiming access. If there is any doubt about the validity of the claim, administrators shall obtain legal advice before proceeding with the request.
23. Access to Education Support Services files shall be determined by the Superintendent responsible for Student Support Services, recognizing that there is a parental right of access to such material under *Local Authority Freedom of Information and Protection of Privacy Act*.

Should the superintendent determine that the release of specific items in the file could cause harm to individuals involved, such information may be withheld but is subject to a parental appeal to the Privacy Commissioner.

24. Documents to be retained according to disposal requirements per AP 185 – Retention and Disposal of Records.
25. Access to documents stored at the Education Centre shall be through the superintendent responsible for cumulative records as per the terms and conditions of this policy.

ADMINISTERING MEDICATION AND MEDICAL TREATMENT OF STUDENTS

Background

The provision of a safe school environment may include the administration of prescription medication to students or the provision of health-related services. The Division has a duty to accommodate, to a reasonable extent, those students who require health and personal care practices in order for them to attend school regularly.

The principal and staff shall not consider themselves to be experts in the administration of medication and shall not be required to administer prescribed medication to students. It is recognized that some staff members may not feel comfortable administering medication and may be excused from such activity.

Whenever possible every effort is to be made for prescribed medication to be administered at home or at school by a parent/guardian. If this is not possible, Division personnel may assist in the provision of medication to pupils.

Under no circumstances shall a student be assisted in taking prescribed medication without a doctor's prescription and direction from the parent/guardian.

Employees of the Division shall not dispense non-prescription drugs to students.

School personnel have a duty to render assistance in helping students who experience emergency health problems, resulting from an accident or from a pre-existing physical or mental condition. There is a duty to do what is reasonable under the circumstances.

Upon the administration of medication in an emergency situation, school staff shall quickly notify the parents/guardians and/or the physician of record depending upon the availability of either.

The Division is committed to working with the Health District in educating school personnel regarding student medical conditions, procedures and preventative measures.

Procedures

1. "Administration" of medication may occur at the school level. Administration, for example, refers to opening a container, taking out a pill, and giving it to a student.
2. "Management" of medication shall not occur at the school level. Management requires knowledge and information about the interactions between drugs and potential impact on students depending on their medical condition.
3. A student's medical condition may require health-related services during the school day including tube feeding, ostomy care, postural drainage, or administration of injections. When a student cannot self-inject and the parent/guardian cannot come to the school to inject, a designated Division employee may be provided with in-service from qualified medical personnel for the administering of injections.

When a student requires medication or health-related services during the school day, the following steps are to be undertaken:

- 3.1 The principal, in consultation with staff, parents/guardians, shall make a clear effort to establish a mutually acceptable protocol for administering the medication or providing health-related services.
 - 3.2 If the principal cannot negotiate a protocol, the matter is to be referred to the designated superintendent responsible for student support services.
 - 3.3 The superintendent, in consultation with the principal, staff, parents/guardians, medical personnel and other stakeholders shall establish a protocol for administering the medication or providing health-related services.
 - 3.4 Current staff may be trained to specifically administer the medication or provide the health-related service. In some cases, additional staff may be required.
4. When it is determined that medication is to be administered by Division personnel, the family or agency involved must notify the principal in writing, using the "Prescribed Medication Form" – Appendix A. A copy of the form must be submitted to their superintendent.
 5. Division personnel shall provide for the safe storage of prescription drugs. The amount of medication held at the school shall be determined on a case by case basis. The parent/guardian or agency involved is responsible for delivering medication to designated Division personnel.
 6. Each school shall maintain a Medical Readiness Plan based on site-specific circumstances and in consideration of:
 - 6.1 Occupational Health Safety issues and practices;
 - 6.2 First Aid readiness and procedures;
 - 6.3 An emergency medical response protocol.
 7. The principal shall maintain a registry of all medication provided to a pupil on the Medication Registry – Appendix B. The registry shall include the student's name, date, time of day, name of medication, dosage given, and the name of the Division employee providing the medication.
 8. Whenever practical, medication shall be administered in the presence of another staff member, and this fact shall be noted on the Medication Registry.
 9. Unused medication shall be returned to parents or to a pharmacy for safe disposal a) at the end of the school year, or b) when a child moves schools during the year.

STUDENTS WITH COVID-19 SYMPTOMS IN SCHOOL

Background

The Saskatchewan Re-Open Plan's Primary and Secondary Educational Institution Guidelines have been developed to inform local planning on the resumption of in-classroom learning from students in the 2020-21 school year. Under these guidelines, local administrative procedures are required for students that are exhibiting signs and symptoms consistent with COVID-19 (refer to Appendix A). It is important to note that not all students with symptoms consistent with COVID-19 will actually have the disease, but processes to mitigate the risk of transmission of COVID-19 must be followed.

Procedures – Student with Potential COVID-19 Symptoms

If a student is exhibiting symptoms suggestive of COVID-19 (see Appendix A), the following steps should be taken in order to minimize the risk of exposure to others:

1. In consultation with the Superintendent, each school shall:
 - a) set up a designated isolation room in the school;
 - b) ensure that appropriately sized face masks, face shields and hand sanitizer are readily available in all classrooms in the school;
 - c) keep accurate and up-to-date records of attendance and seating arrangements to support public health investigation and contact tracing;
 - d) establish standardized procedures for cleaning and disinfecting classrooms and high touch surfaces and student work stations, including designating the employees who shall be responsible for these tasks, noting that all requirements associated with the increased sanitization and disinfection of facilities including common areas will be completed by custodial staff throughout the day; and,
 - e) establish standardized procedures for the disposal of PPE equipment.
2. If, while at a school, a staff member identifies a student exhibiting one or more of the symptoms of COVID-19 (as set out in Appendix A), a staff member shall:
 - a) immediately remove the student from the classroom to a designated isolation area:
 - i) in a respectful manner that protects the privacy of the student; and,
 - ii) in a manner that is as safe as possible for the staff members and other students and staff.
 - b) notify the principal or designate.
3. In all interactions with the student, staff members shall:
 - a) maintain physical distancing from the student as much as possible;
 - b) wear a mask and face shield, if a face shield is available;
 - c) avoid contact with the student's respiratory secretions;
 - d) provide the student with a face shield (if available) and request the student to wear it;
 - e) provide the student with a face mask, if the student is not wearing one, and request the student to wear it provided the student is not in respiratory distress;
 - f) wash their hands adequately with soap and water or use hand sanitizer before and after attending to the student; and,
 - g) dispose of disposable PPE and arrange for non-disposable PPE (i.e., face shield) to be cleaned and disinfected.

4. The principal or designate shall, as soon as reasonably possible:
 - a) call parents or caregivers to pick up and remove their child from the school to a location where the child may self-isolate, and instruct them to call 811 as soon as possible;
 - b) arrange for the cleaning and disinfection of the isolation room as soon as reasonably possible, the student's classroom and, in particular, the student's desk and surrounding desks and any other common touch items in the classroom and/or other school facility (i.e., washroom) to which the student would have had access that school-day by custodial staff; and,
 - c) advise the Superintendent.
5. If a case of COVID-19 is confirmed by the Saskatchewan Health Authority (SHA), the Director or designate will arrange for any other steps that may be required by SHA Public Health.
6. Any and all communications regarding the student or further action that might need to be taken by the staff, students or school must be done only by or with the approval of the Director or designate in consultation with Public Health.

Physical Restraint and Seclusion

Background

The School Division believes that all children and youth have the right to be treated with dignity and strives to ensure that all students and staff are provided with a safe and caring learning environment. Hence, the school division has established guidelines and procedures for the safe and respectful use of physical restraint and seclusion.

The following related principles are adapted from the Council for Exceptional Children's (CEC's) *Policy on Physical Restraint and Seclusion Procedures in School Settings* (Behavior Disorders, 34(4), p. 226).

Principles

- Behavioural interventions for children consider the right of all children and youth to be treated with dignity.
- All children and youth receive necessary educational programming and supports in a safe and least restrictive environment.
- Positive and appropriate educational interventions include behavioural supports that are proactive and preventative.
- Early intervention promotes the academic and behaviour success of all students.
- Schools are staffed with appropriately trained personnel who employ conflict de-escalation techniques to avoid and defuse conflict and crisis situations.
- Children and youth whose patterns of behaviour impede their learning or the learning of others receive appropriate educational assessment. This includes a functional behaviour assessment and a subsequent proactive behavioural intervention plan.
- Positive behavioural intervention plans include a) targeted instruction in appropriate behaviour, and b) strategies to self-regulate and de-escalate behaviour.

Procedures

1. Definitions
 - 1.1 Physical Restraint: A physical restraint is defined as any method of one or more persons restricting another person's freedom of movement, physical activity, or normal access to his or her body (Council for Exceptional Children, 2009).
 - 1.2 Seclusion: Seclusion is the involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving. This includes situations where a door is secured, blocked by other objects, or held by staff (Council for Exceptional Children, 2009).
2. Guidelines
 - 2.1 Seclusion or physical restraint procedures are used in school settings only when the physical safety of the student and/or others is in imminent danger.
 - 2.2 Seclusion or physical restraint procedures are viewed as *last resort* interventions that maintain a reasonable concern for student dignity. Last resort implies that all other available interventions have been implemented with fidelity but a) have failed to prevent or de-escalate a situation, and b) there is significant concern for the personal safety of the student and/or others.
 - 2.3 The purpose of seclusion and physical restraint is to redirect misbehaviour that has resulted in a) repeated and directed aggression or hostility, and b) compromised safety.

- 2.4 Seclusion and physical restraint is not used as a) punishment, b) discipline, or c) a substitute for appropriate educational support.
3. Seclusion/Timeout Room Safety Requirements
 - 3.1 Meet National Building Code of Canada (i.e.; regulations regarding door release hardware).
 - 3.2 Allow students to exit in an emergency.
 - 3.3 Provide the means by which adults can visually monitor the student at all times.
 - 3.4 Contain no furniture or other items that may be harmful to students.
 - 3.1 Are well ventilated.
 4. Processes
 - 4.1 Ensure that all seclusion environments are safe, consider the dignity of the child, and meet programming and safety guidelines (i.e.; reasonable location, size, no furniture or baseboards, small window, foot lock).
 - 4.2 Provide staff involved in physical restraints with regular training in Non-Violent Crisis Intervention.
 - 4.3 Inform and engage parents as appropriate when planning for the use of physical restraint and seclusion for individual students. When physical restraint and seclusion are included in the behaviour or safety plan of a student with intensive needs, informed signed parental consent is required. These individual behaviour or safety plans are appended to the student's IIP.
 - 4.4 Ensure that a student in seclusion is carefully and continuously observed and monitored by an adult throughout the entire period of seclusion.
 - 4.5 Document student behaviour at 5 minute intervals collecting specific data for follow-up analysis.
 - 4.6 Notify administrator as soon as a student is placed in seclusion or physical restraint.
 - 4.7 Inform parents promptly when physical restraints or seclusion have been utilized for their child.
 5. Follow-Up by School-Based Team
 - 5.1 Debrief the use of physical restraint and seclusion.
 - 5.2 Use the completed documentation form to a) debrief current situation including antecedent or triggers, b) review effectiveness of current interventions, and c) problem solve to determine additional processes or supports required to prevent future escalation of such behaviour.
 - 5.3 Meet with parents as appropriate to collaborate and formulate future intervention plans to prevent such escalation.
 - 5.4 Consider request for support from SRPSDs student support services (SSS) team which may include a) a risk assessment, and/or b) further consideration of behaviour interventions as required by the presenting situation.

STUDENT SEARCH AND SEIZURE

Background

The Division believes that to maintain order and discipline in schools and to protect the safety and welfare of students and staff it is sometimes necessary to engage in search and seizure procedures.

Other than in cases where the health or welfare of a student is in immediate danger or where a crime has been committed or where there is reasonable belief that a crime may be committed by a student and the well-being of other persons is in immediate jeopardy, the Board does not approve of outside personnel coming to the school to question, search or apprehend students unless the parents/guardians are aware of such proceedings or a legal document can be produced authorizing such action to take place.

This procedure applies to situations which arise during school hours and also during the course of any school-sponsored activity.

Procedures

1. It is a matter of law that student lockers and desks are school property and remain, at all times, under the control of the schools, and students shall have no expectation of privacy therein. Searches of lockers or desks may be undertaken for any reason, at any time, without notice and without student consent.
 - 1.1 Parents and students shall be advised of this reality when they are assigned a locker.
 - 1.2 Principals shall ensure that students are so advised on an annual basis.
2. Any search for prohibited substances will be done with due regard for the law. Rules of evidence and respect for the rights of the individual shall be respected at all times.
3. If a properly conducted search yields illegal or contraband materials, the proper legal authorities shall be notified and such material shall be turned over to them for ultimate disposition.
4. A principal or staff member is required to act under reasonable belief or cause that a student is in possession of a prohibited substance or object.
5. The principal shall ensure that sufficient and appropriate records are maintained with respect to all situations governed by this policy.
6. The legality of a search depends upon reasonableness in all circumstances.
 - 6.1 Determining reasonableness is a twofold step:
 - 6.1.1 Whether the action was justified at its inception; and
 - 6.1.2 Whether the search actually conducted was reasonably related in scope to the circumstances which justify the interference in the first place.
 - 6.2 The search must not be excessively intrusive.

7. When there is an issue of custody of children, school staff members shall communicate only with the parent who has legal custody. In order to prevent a misunderstanding, students shall be advised early in the school year that questioning and searches are a possibility if there is reason to suspect that a wrong has been done. It is also recommended that students be so advised through the Student Handbook.
8. In accordance with such provisions as are outlined in various provincial and federal statutes, teachers and principals shall permit social services personnel to investigate a complaint that a child is abused, neglected, exploited or treated cruelly and is in need of protection.
 - 8.1 Principals shall request proof of identity prior to granting permission to question or apprehend a student if there is any doubt concerning such identity.
 - 8.2 Principals shall adhere to procedures detailed in the Division protocol document entitled, "Students at Risk, Child Protection - Abuse & Neglect", when dealing with Social Services personnel, police officers or others involved in the investigation.
 - 8.3 When a student is being apprehended, the principal shall require the apprehending social worker to submit a letter or similar document indicating that the worker is acting in an official capacity in apprehending the student.
9. In accordance with such provisions as are outlined in various provincial and federal statutes, teachers and principals shall permit probation officers to deal with students who have been judicially placed in their charge in such manner as they (the probation officers) deem necessary.
 - 9.1 Principals shall request proof of identity prior to granting permission to question, search, or apprehend a student if there is any doubt concerning such identity.
 - 9.2 When a student is being apprehended, the principal shall require the apprehending officer to submit a letter or similar document indicating that the officer is acting in an official capacity in apprehending the student.
10. In that teachers and principals hold a position of "in loco parentis" while children are at school, it is their responsibility to look after all aspects of the children's well-being. When a law enforcement officer comes to the school to question, search or apprehend a student, the teacher or principal shall:
 - 10.1 Discourage interrogation, searches or apprehension during school hours and on school premises.
 - 10.2 Put forth a best effort to contact the parents/guardians so they can be informed and to ask them to be present if at all possible prior to contact with the student. Should the parents/guardians not be present, remain with the student at all times while the student is in the presence of a law enforcement officer.
 - 10.3 Disallow, other than in cases where a student has committed a serious criminal offence whereby a law enforcement officer has authority to arrest without a warrant, the taking of a student away from the school premises without parent/guardian consent or legal authorization. If legal authorization (warrant or court order) is presented, it is recommended that a copy be taken.
 - 10.4 Put forth a best effort to see that the student is advised of what is taking place and encourage the student to wait until the parents arrive before engaging in discussion with the police.
11. If it is suspected that a student is in possession of an illegal material and therefore should be searched, the principal may:
 - 11.1 Contact the police immediately and also notify the parents/guardians, or
 - 11.2 Notify only the parents/guardians immediately.

12. Search of Property:

- 12.1 The locker is the property of the Division and may be searched by the principal in the presence of another Division employee.
- 12.2 The police, with reasonable cause, may conduct a locker search either with or without a search warrant. Authority to search should be requested from the police before a search takes place.
- 12.3 School-based administrators with reasonable cause may search a vehicle on school property if one of the following conditions exist:
 - 12.3.1 The search is a result of a threat to safety;
 - 12.3.2 The search is performed with the consent of the vehicle operator;
 - 12.3.3 There are grounds to believe that a criminal act has occurred in which case the search should be done with the assistance of the police.

13. Search of a Person:

- 13.1 The principal is to be convinced that a search is reasonable, based on observation and/or preliminary investigation.
- 13.2 Any search conducted at the school shall have the principal as well as an adult witness present. The principal shall respect propriety and modesty.
- 13.3 A principal must not conduct a total body search. Such a search is only within the purview or authority of the police.
- 13.4 When it is necessary to conduct searches involving female students such searches shall be done by female staff members. When it is necessary to conduct searches involving male students such searches shall be done by male staff members.

14. Police Interrogations and Searches

- 14.1 In general, all searches by police officers shall be by search warrants. However, police may conduct drug searches, searches for prohibited weapons, restricted weapons, or firearms, or searches under the Customs Act and the Liquor Act without warrant as provided by law. In each such case, the principal will report the circumstances immediately to the Director.
- 14.2 In all circumstances the parents or guardians are to be notified of any searches before they take place if possible, or as soon after the search as is possible.
- 14.3 Where, in the course of their duties, police officers find it necessary to search an area of the school, the principal or a teacher designated by the principal shall accompany the officers on their search. Authority to search is to be requested from the police before a search takes place.
- 14.4 When a member of the police detachment finds it necessary to interview a student during school hours, the officer will be expected to report to the office of the principal and make known the purpose of the visit. Authority to interview is to be requested from the police before an interview takes place.

Any infraction of the procedures set out above must be reported to the Director.

When interviews are conducted on school premises, the police officer in charge shall inform all witnesses or suspects of their legal rights before such interviews take place.
- 14.5 If a student is to be removed from the school by police officers, the principal or another staff members shall provide sufficient information to the police to enable them to contact the parents/guardians. Should the police not contact the parents/guardians, the principal shall do so except in circumstances which would jeopardize the investigation.
- 14.6 Whenever legally permissible, the principal or a teacher assigned by the principal shall be present at any interviews which take place between police officers and students in school.
- 14.7 Where the police wish to conduct an interview with a student on the school premises, the following guidelines shall be in effect:
 - Prior permission is to be obtained from the parents, or
 - The police are to provide evidence of authority to conduct the interview.

- 14.8 Where the police wish to conduct an interview with a witness/potential witness on the school premises, it is not necessary to follow the procedure outlined above. Witnesses/potential witnesses are not suspects and therefore do not run the same risk of having rights violated. However, it is still expected that an attempt to contact parents/guardians will be made prior to an interview. It is advisable for the principal or vice-principal to be present at such an interview if it is deemed desirable that it be held on school premises. Where a serious crime is involved, an alternate location for the interview, determined in consultation with the parent/guardian, may be more appropriate.
- 14.9 Where the principal conducts a search or interview with a student and the student is subject to school-initiated disciplinary action only, the following guidelines are in effect:
- The search or interview shall be conducted in a respectful manner which recognizes the right to a fair hearing and avoids threat/duress.
 - The reason and purpose of the search or interview should be clearly stated.
 - All searches are to be conducted in the presence of another adult.

VIOLENCE AND STUDENT HARASSMENT

Background

The Division is committed to providing students with a safe and secure environment. Therefore, acts of violence, threats of acts of violence, intimidation, or harassment on or by any person will not be tolerated. The Division is committed to the concept of zero tolerance of violent behavior, i.e., there will be consequences for all acts of violence, including harassment.

The Division supports the provision of training for staff that includes:

- The means to recognize potentially violent situations;
- Procedures and practices to minimize or eliminate risks to students;
- The appropriate responses of staffs and students to incidents of violence, including harassment.

Definitions:

1. *Violence* means the attempted, threatened, or actual conduct of a person that causes or is likely to cause injury, and includes any threatening statement or behavior that gives a person reasonable cause to believe that he or she is at risk of injury within Division-operated facilities, on Division property, at any school-related activity or event and travelling to and from school. Violence, therefore, is any verbal or physical action taken which threatens or results in the inflicting of physical, emotional or psychological distress or bodily harm on a person.
2. A *weapon* is any object which is either designed or intended for use in threatening or inflicting body harm on a person.
3. *Personal harassment* is any behavior that has as its intent or effect to alarm, annoy or belittle a person.
4. *Sexual harassment* is any unwelcome behavior which is sexual in nature. It can include but is not limited to the following:
 - Unwanted physical contact;
 - Unwelcome remarks or compromising invitations;
 - Verbal abuse;
 - Display of suggestive pictures;
 - Leering, whistling, innuendoes, jokes or other behaviors or gestures of a sexual nature;
 - Demands for sexual favours.
5. *Zero tolerance* means zero *tolerance* of violent behavior. It means there will always be consequences for all acts of violence. It does not mean zero tolerance of the student who commits a violent act wherein one incident automatically means expulsion. It means that judgement and common sense will be applied to each situation.

Procedures

1. Staff at all levels shall respond firmly, decisively, and without delay to behavior which causes or threatens to cause harm to any student.
2. All staff members are responsible for all students and all students are responsible to all staff members with regard to the maintenance of a safe and secure environment.

3. It is important to note that while safety and security violations commonly revolve around student violence against other students, all staff members must be aware of two other dimensions of possible violations - student violence against teachers and teacher violence against students.
4. Staff are directed to take particular note of the most common safety and security violations faced by students:
 - 4.1 Bullying and threatening;
 - 4.2 Physical violence;
 - 4.3 Harassment and mistreatment;
 - 4.4 Vandalism, theft and extortion;
 - 4.5 Sexual abuse;
 - 4.6 Drug and alcohol offenses, and
 - 4.7 Possession of weapons.
5. School expectations concerning student conduct with respect to violence/harassment, and the possible consequences of serious or repeated misconduct, are to be communicated to students, parents and staff.
6. The onus is on the victim, student/staff witness, or parent/guardian to report incidents of violence as soon as is reasonably possible.
7. Reported cases of violence/harassment shall be investigated by the appropriate school-based or system administrator in keeping with the requirements of Division procedures. The investigative procedures shall include:
 - 7.1 A review of the complaint, interview of the complainant and, if possible, interview of the alleged perpetrator or perpetrators, as well as any witnesses, and determination of whether to proceed on a formal or informal basis,
 - 7.2 A decision by the school-based administrator in consultation with their superintendent to proceed with formal action would follow one or more of the following:
 - 7.2.1 School-based discipline procedures;
 - 7.2.2 Division policy and procedures on suspension and expulsion;
 - 7.2.3 The convening of a Board Student Discipline Committee hearing;
 - 7.2.4 Involvement of the police or other agencies.
8. As part of the investigation:
 - 8.1 The victim and the alleged perpetrator shall be requested to provide a statement;
 - 8.2 The victim and/or witness shall be made aware of their right to report the incident to the police;
 - 8.3 School principals are authorized to report incidents directly to the police;
 - 8.4 In case of students, the parent/guardian of both the complainant and perpetrator shall be advised of the reported incidents.
9. Written records of the incident shall be retained by the investigator.
10. Where possible, student victims and perpetrators shall be provided with counselling and support from system personnel.
11. Offenders may be asked to obtain external counselling.

ALCOHOL AND DRUGS

Background

The Division has an educational and societal responsibility to prohibit the student use or possession of alcohol or drugs on school premises, at other locations while involved as a participant or spectator in a school-sponsored activity, or while in transport to and from school or a school-sponsored activity.

The Division prohibits the use of alcohol or drugs by students while on Division property or at events sponsored by the Division and its schools. The possession of these substances, with the exception of tobacco and tobacco products, is also prohibited. (Note: While students 18 years of age may legally possess tobacco, this provision recognizes that it is the Board's legal right to prohibit or restrict its use on school property or at school-sponsored events.)

Violations can occur in five ways:

- Use of tobacco in a restricted area,
- Use or possession of alcohol,
- Use or possession of inhalants or other non-regulated substances for the purpose of intoxication,
- Use or possession of illicit drugs,
- Being intoxicated by alcohol or drugs.

While the Division recognizes the need for professional and resource staff to provide intervention, assistance and support to students who may be involved with chemical substance use or abuse, the Division believes that other community agencies have the major responsibility for providing counselling and rehabilitative programs for those who abuse alcohol and drugs. The schools of the Division will assist these agencies in fulfilling their responsibilities wherever possible, and refer students to them whenever necessary.

Procedures

1. Students Under the Influence of Alcohol and Drugs

Definition: "Under the Influence" means when the use of an alcoholic beverage or illegal drug has a discernible effect upon a student.

 - 3.2.5 Inform the parents/guardians of the police action and the suspension process as soon as reasonably possible;

Note:

Possession of controlled drugs (e.g. valium) is not an offence. Possession of restricted drugs (e.g. LSD, MDA) and narcotics (e.g. marijuana, hashish) is an offence (*Narcotic Control Act and The Food and Drugs Act*).

Where a principal strongly suspects that alcohol or drugs are being "pushed" on school premises, by students or by others, the police shall be notified.

4. Student Possession and/or Trafficking in Cigarettes or Other Tobacco Products

Definition: "Possession" mean students under the age of 18 having cigarettes or other tobacco products under their control. "Trafficking" means when a student gives, sells, or delivers cigarettes or other tobacco products to students under the age of 18.

 - 4.2.5 Determine whether to contact the police for advice and/or assistance.

 6. Particularly when drug abuse is suspected, care shall be taken to concentrate on specific behaviour when communication with parents and other individuals takes place. School personnel are not to make a diagnosis or state a suspected cause for such behaviour.
 7. As school buses are the property of the Division, possession, distribution, and sale of alcohol and/or drugs is prohibited on these vehicles. Students on school buses are subject to all the applicable policies and procedures of the Division with respect to transgressions related to alcohol and or drug offences.

CRIMINAL RECORD CHECKS

Background

The Division is committed to providing a safe school environment for students and staff.

In addition to staff, student supervisors, volunteers, interns, practicum students, and contract employees fulfill positions of trust and therefore constitute an essential component of a safe school environment.

Criminal record checks will be completed for all prospective employees, contract employees, volunteers, interns and practicum students who by the nature of their employment, volunteer activity, internship, or practicum shall be responsible for the well-being of one or more children or vulnerable persons or if the position is one of authority or trust relative to those children or vulnerable persons.

Procedures

1. Guidelines – Prospective employees, contract employees, volunteers, interns and practicum students:
 - 1.1 The objectives of the criminal record checks are to:
 - 1.1.1 Determine if a candidate has been convicted of a criminal offense;
 - 1.1.2 Obtain information related to the candidate's suitability for the opportunity for which they are being considered; and,
 - 1.1.3 Determine if a risk is posed to children or vulnerable persons.
 - 1.2 The applicant candidate is responsible for any costs associated with obtaining the criminal record check including the vulnerable sector check.
 - 1.3 Criminal record checks, including the vulnerable sector check, must be submitted prior to commencement of employment, volunteer activity, internship, or practicum.
 - 1.4 If a criminal record or charge(s) exists, superintendents responsible for human resources shall assess whether the conviction(s) or charge(s) is relevant to the job and whether the interests of the employer would be prejudiced as a result of an appointment.

If the original document is presented, it is to be returned to the candidate and the copy shall be placed in the candidate's personnel file.
 - 2.4 If there is indication that there may be or is a criminal record the candidate is not to commence employment, internship or practicum. The candidate must proceed with the fingerprinting process. Upon receipt of the official document from the RCMP identifying the criminal record(s), superintendents responsible for human resources shall determine an appropriate course of action.

- 2.5 If there is indication that there may be a sexual offense for which a pardon has been granted, the candidate must proceed with the fingerprinting process. If the candidate chooses to provide an Affidavit (form attached) it will be reviewed by superintendents responsible for human resources to determine the appropriate course of action. If the decision is to allow the candidate to commence employment, internship, or practicum, the candidate is still required to provide the results of the fingerprinting process immediately upon receipt of the results. Upon receipt of the results of the fingerprinting, superintendents responsible for human resources shall determine the appropriate course of action.
- 2.6 If an employee, intern, or practicum student notifies the employer, or if information is received, as per Administrative Procedure 402, this must be reported to the superintendents responsible for human resources immediately. Upon receipt of information, the superintendents responsible for human resources will investigate the circumstances and take the appropriate action in accordance with the relevant Collective Agreement, Acts and/or Regulations.
3. Volunteers:
- 3.1 Prior to the commencement of volunteer activity, candidates shall be informed of the need for a criminal record check including a vulnerable sector check and shall be provided with the appropriate documentation (RCMP or PAPS).

- 3.3 If the candidate already has a criminal record check, including the vulnerable sector check, it will be accepted as long as it is not more than one (1) year old. If it is more than one (1) year old, it shall not be accepted.
- 3.4 If the original document is presented, it is to be returned to the candidate. The copy is to be kept on file at the school. The candidate is not to commence volunteer activity until the requested criminal record check and vulnerable sector check is received by the principal.

EMPLOYEE ALCOHOL AND DRUGS

Background

The Division has an educational and societal responsibility to prohibit the employee use or possession of alcohol and drugs at all buildings and property owned by the Division. The use of drugs and alcohol can create unacceptable safety risks to everyone at the workplace.

Definitions

Alcohol Dependence is defined as: “The habitual drinking of intoxicating liquor by an employee, whereby the employee’s ability to perform his/her duties is impaired or his/her attendance at work is interfered with, or he/she endangers the safety of others.”

Drug dependence is defined as: “The habitual taking of drugs by an employee other than drugs prescribed by a physician, whereby the employee’s ability to perform his/her duties is impaired, or his/her attendance at work is interfered with, or he/she endangers the safety of others.”

Possession is defined as: “When an individual has illegal drugs or alcoholic beverages on his or her person or in her or his control.”

The Division strongly encourages employees who abuse alcohol or use illegal drugs to seek assistance to stop abusing alcohol or using illegal drugs before they have an incident. There is an expectation to report the addiction to their employer. Failure to do so, as set out below, could result in the termination of their employment.

Note: While an individual may legally possess a drug substance, this provision recognizes that it is the Board’s legal right to prohibit or restrict its use on school property or at school-sponsored events

Procedures

1. In order to minimize the risk of impaired performance, the following are strictly prohibited for all staff members while engaged in assigned duties or while in direct supervision of students, on school premises or at school sponsored events:
 - 1.1 The use, possession, distribution, offering or sale of alcohol, illicit drugs, illicit drug paraphernalia or un-prescribed drugs for which a prescription is legally required in Saskatchewan;

 - 1.5 Consumption of alcohol during working hours, on or off school premises, including meal times or other personal work breaks, whether or not they are considered to be paid time.

2. Such prohibitions do not apply to a prescription drug where:
 - 2.1 Such drug is being used for its intended purpose as currently prescribed for the person possessing it, and
 - 2.2 The use of such drug doesn't carry any warnings or precautions that may be relevant to the performance of their duties or doesn't affect their safety or the safety of others while working
3. The Division reserves the right to request a physician's statement confirming that the use of such drugs has been prescribed and that the use of such drug will not adversely affect the performance of the staff member or the safety of students and/or other staff members.
4. Any employee found in violation of procedure 1 may be subject to disciplinary action, up to and including termination, referral to criminal prosecution, and/or may be referred to an assistance or rehabilitation program at the discretion of the Director.
5. Employees experiencing or who suspect they have a problem with drug or alcohol abuse or dependency are encouraged to seek counselling assistance and report the addiction to their employer.
 - 5.1 No employee will have his/her job security or promotion jeopardized by requesting counselling, however, the employee is expected to perform his/her duties in a competent manner. Failure to do so will result in appropriate corrective or disciplinary action.
 - 5.2 The responsibility for correcting unsatisfactory job performance or behavior resulting from alcohol or drugs rests with the employee.
 - 5.3 Employees may be granted a leave of absence at the discretion of the Director to participate in a drug or alcohol abuse rehabilitation program.
 - 5.4 Information concerning an employee's involvement in the treatment agencies will be held in the strictest confidence and will not be disclosed except:

WORK FROM ALTERNATE LOCATION

Background

The Division recognizes that, in certain unique circumstances, the use of flexible working arrangements can be beneficial to both the employee and the school division. As such, the Division supports the concept of working at an alternate location, such as the employee's home. Typically, if a work from an alternate location arrangement is approved, a blend of working at an alternate location and on site will be the standard. Typically, this will be applied to out of scope employees but in unique circumstances, other employees would be considered.

Procedures

1. Principles, Criteria and Guidelines for Working in Alternate Locations
 - 1.1 The Division recognizes that working at an alternate location should be beneficial to both the employee and the employer.
 - 1.2 An alternate working location can be initiated by the Division or by the employee. However, the supervisor and the appropriate human resources personnel are responsible for the decision regarding the alternate arrangement.
 - 1.3 Arrangements to work at an alternate location can either be temporary or can be longer term.
 - 1.4 Working at an alternate location shall be compatible with the employee's job duties and responsibilities and/or personal circumstances, as determined by the employee's supervisor.
 - 1.5 When assessing working at an alternate location, the following factors will be considered; nature of position/tasks, operational needs, ability to maintain appropriate service levels, performance and productivity of the employee and the ability to work independently with minimal supervision.
 - 1.6 Employees who work from an alternate location are required to follow regular work hours.
 - 1.7 Employees who have received approval to work from an alternate location are to participate in meetings or report to the office as requested by their supervisor.
 - 1.8 If working at an alternate location is approved, the arrangement does not change the employee's basic terms and conditions of employment with the Division under the applicable collective agreement, employment contract, policies, and legislation.
 - 1.9 Working at an alternate location arrangement will be reviewed on a regular basis. The employer reserves the right to change or end the arrangement at any time and will ensure reasonable notice to the employee is provided.
2. Requesting Leaves
 - 2.1 The normal processes apply for seeking approval for vacation, illness, or other absences. (Eg: if the employee has a scheduled medical appointment, the employee must submit a medical leave).
 - 2.2 Employees are expected to follow the regular leave processes which includes communicating with their Supervisors and the Receptionist.
 - 2.3 Employees who are uncertain whether such requests are compatible with the working from an alternate location arrangement can contact Human Resources for clarification. For clarity, working at an alternate location, in and of itself, shall not trigger overtime.

3. Information Security

COVID-19 VACCINATION FOR EMPLOYEES

Background

Saskatchewan Rivers Public School Division (SRPSD) is committed to taking precautions necessary to protect the health and safety of students and employees and to provide and maintain a safe work and learning environment for all.

Vaccination has been shown to effectively mitigate COVID-19 virus transmission and protect vaccinated individuals from severe symptoms of COVID-19.

This administrative procedure is designed to:

- encourage COVID-19 vaccination rates among school division employees as one of the critical control measures to reduce the impact of COVID-19; and
- utilize testing of those who are unvaccinated to reduce the chances that school division employees are COVID-19 positive when they come to school division facilities.

Due to the evolving nature of COVID-19, and regular changes to direction or advice from the Ministry of Education and public health officials, this Procedure will be updated as required on a regular basis.

Definitions

1. *School Division Facility* – means any building or vehicle owned, leased or operated by the school division and specifically includes, but is not limited to, schools, offices, school buses, garages and workshops.
2. *Employees* - means all individuals employed by Saskatchewan Rivers Public School Division on a permanent, substitute, replacement, or temporary basis.
3. *Fully Vaccinated* - means an individual has received the second dose of a two-dose COVID-19 vaccine at least 14 days ago. Any combination of the Health Canada approved vaccines for the two doses is considered fully vaccinated.
4. *Proof of Vaccination* - means documentation verifying receipt of a vaccination series approved by Saskatchewan Health which may include one of the following:
 - card issued at time of vaccination by SaskHealth
 - a copy of their vaccination record which is obtained online through MySaskHealthRecord
 - proof of vaccinations through a system issued by the province of Saskatchewan (QR Code)
 - Signed letter from doctor or pharmacist.
5. *Rapid test* - means rapid point-of-care diagnostic tests performed at or near the place where a specimen is collected, which provide results within minutes rather than hours.
6. *Vaccine* - means a COVID-19 vaccine approved by Health Canada.

Application and Scope

This procedure applies to all employees who will have access to a School Division facility. Individual contract service providers will be considered within AP 423. This consideration will be case by case depending on current contract, and regular and ongoing contact within 2 metres of students and staff as a result of the service provided.

Proof of Vaccination Requirements

1. All employees must disclose their vaccination status by providing information required on the Vaccine Verification Form by October 15, 2021 at 4:30 pm. Proof of vaccination will be collected through the Vaccine Verification Form process. Employees that cannot provide proof through the Vaccine Verification Form process will provide proof of vaccination to a School Division designated official.
2. Employees who are unable or who are unwilling to disclose their vaccination status as required must undergo COVID19 self-testing as described in this procedure.
3. For employees to be exempt from providing a negative COVID-19 test result they must have their second vaccination by November 8, 2021.

Testing and Self-Monitoring Requirements

Testing Requirement

1. Testing requirements are for all employees not fully vaccinated or who have not disclosed their vaccination status.
2. Employees must undergo COVID-19 self-testing rapid tests at home and outside of working hours. Employees must sign off on the Declaration - COVID-19 Test form at least once every 7 days beginning November 15, 2021. The first declaration of a negative COVID-19 test will be completed by midnight November 21, 2021. This form will be completed each week on an ongoing basis. If an employee becomes fully vaccinated this process will discontinue 14 days after the second dose of the vaccine.
3. Entry into the School Division facility or participation in the School Division work-related activities will only be permitted for employees not fully vaccinated who test negative.
4. For employees who are less frequently present at a SRPSD facility, frequent testing may not be reasonable. These individuals must ensure when they do attend work that they have completed the Declaration-COVID-19 Test form at least 7 days prior to attending a SRPSD facility.
5. Employees will be required to keep proof of their negative COVID-19 Test result for a period of 1 month. This proof must include a form of date verification that accompanies the negative test result. An example of an acceptable form of proof will be a photo taken that shows the result and date the picture was taken.
6. SRPSD will adjust testing requirements as necessary and in accordance with public health guidance.

Cost of Tests

1. Between November 15 and December 17, 2021 SRPSD will provide a minimum of 10 self-administered COVID-19 tests for each employee who is not fully vaccinated.
2. After December 17, 2021, tests will no longer be supplied by the employer and employees who are required to test must source and pay for the tests themselves.
 - 2.1 Any employee who is medically unable to be vaccinated is encouraged to discuss their situation with their supervisor or with HR to determine whether a medical accommodation is required.

Positive Test

1. A positive result from a self-administered COVID-19 rapid test is considered a preliminary or presumptive positive and:
 - 1.1 Any employee who receives a preliminary positive result must:
 - inform their supervisor;
 - call 811 and seek confirmation through a lab-based PCR (polymerase chain reaction) test; and
 - self-isolate until the results of the lab-based test are confirmed.

Non-Employees

Non-employees will be expected to follow protocols set out in the SRPSD COVID Response Plan. This will include processes such as masking requirements, sanitization practices, not entering SRPSD facilities while experiencing COVID symptoms and any other requirements set out in the most current plan.

Protection of Privacy

1. Proof of vaccination or other personal information collected in accordance with this procedure will be kept confidential, stored in a secure location, with use and disclosure in accordance with the *Local Authority Freedom of Information and Protection of Privacy Act*.
2. Information gathered for the purposes of this procedure will only be used to the extent necessary for the implementation of this procedure, for administering health and safety protocols, and infection and prevention control measures in the School Division's facilities.

Release Time for Obtaining Vaccinations

1. School Division employees are encouraged to be vaccinated against COVID-19 and Saskatchewan Rivers Public School Division supports employees in obtaining their COVID-19 vaccination.
2. Section 6-22.1 of the 2020 *Occupational Health and Safety Regulations* provides for leave to employees for a maximum of 3 hours total for the purposes of obtaining vaccinations:
 - 2.1 Employees must apply to their immediate supervisor for the leave.
 - 2.2 The School Division will grant such leaves to an employee for both doses of the vaccine.
 - 2.3 Employees are expected to make medical appointments outside of work hours when possible.

2. Employees who fail to comply with this Procedure may be subject to administrative or disciplinary action, up to and including termination from their employment.
3. Other individuals who fail to comply with this Procedure may be restricted or banned from attending any School Division facility for such duration as may be determined by SRPSD.

Review

1. Saskatchewan Rivers Public School Division will continue to closely monitor its COVID-19 risk mitigation strategy and the evolving public health information and context to ensure that it optimally protects the health and safety of employees in the workplace and the public that they serve.
2. This procedure will be reviewed on a regular basis in order to respond to the changes that take place in regard to the COVID-19 pandemic. These reviews will inform the employer in regards to the appropriate timing for the expiry of this administrative procedure.

STAFF ALLOCATION

Background

The Division is committed to engaging the best quality employees available. It recognizes the need to provide strong teaching and non-teaching staff in sufficient numbers to meet the needs of students and their schools.

This recognition must be balanced annually against the resources available to the Division for this component of the budget.

- 1.2 Superintendents, supervisors, and principals are to use the formula guidelines in determining staff allocation for each school.

TEACHING STAFF REDUCTION

Background

The Division believes all students attending its schools are entitled to the best instructional and other school services possible. Therefore, the Superintendent responsible for human resources shall strive to employ teachers of the highest quality.

The Division also recognizes there are times when its ability to provide services may be constrained.

In such cases, the Board through its budget process may find it necessary to reduce the number of teaching staff. These circumstances may include but are not limited to:

- Student enrolments, both current and projected;
- Student educational needs;
- Provincial and/or local financial support for education;
- New and/or revised curricula;
- Program reduction.

The Division will effect the reduction in a manner which considers the educational interests of students to be of paramount importance.

Procedures

1. As part of the budget process the Director provides recommendations to the Board to assist in determining the number of full time equivalent teaching positions for the Division taking into account current and projected enrolments, financial resources, program offerings and any special needs and circumstances.
2. When professional staff reduction becomes necessary, the Superintendent responsible for human resources will be guided by the following to determine which teachers will be retained on staff.
 - 2.1 The principle of attrition will first be applied. Teachers who resign or superannuate will not be replaced.
 - 2.2 Temporary teaching contracts will not be renewed.
 - 2.3 It is recognized that it is necessary to consider the school program to be offered and the teacher knowledge and skills required to offer that program. The Superintendent responsible for human resources will ensure that appropriate staff is retained to carry out the programs of the school division.
 - 2.4 Where the above criteria do not determine which professional staff is to be retained in the Division, teaching service will be the deciding factor. Teaching service is defined by the Provincial Collective Bargaining Agreement expressed in full-time equivalent years.

Teaching service will be determined on the following priority basis:

- Teachers who have served the greatest number of full-time equivalent years in their most recent actual uninterrupted service with the Division.
- Teachers who have served the greatest number of full time equivalent years in total with the Division.
- Teachers who have served the greatest number of full time equivalent years in total.

3. Notwithstanding any of the foregoing, if there is no teacher currently under contract who is available to satisfactorily meet the needs of a particular assignment in terms of knowledge and skills, it may be necessary to hire a new teacher to fill the position.
4. A teacher who is surplus in a particular school according to the priorities set out in this policy will be assigned to an appropriate position within the Division only where such a position is vacant.
5. When no position is vacant in the Division, then the Director will declare the teacher redundant and terminate the contract of employment with the teacher according to the appropriate provisions in *The Education Act, 1995* and the Provincial Collective Bargaining Agreement.
6. In the event that there is no appropriate assignment for a teacher who is surplus to the needs of the Division, the teacher's contract will be terminated in accordance with section 210 (1)(b) of *The Education Act, 1995*.

TEACHER TRANSFER

Background

The purpose of this policy is to maximize the opportunities for teacher movement within the system while providing an excellent learning environment for students throughout the division.

Of note:

- Teachers in Saskatchewan Rivers Public School Division are hired to the system and not to a particular school, grade level or subject area.
- Teacher transfers are changes in teaching location (building) and may be initiated by either the division or the teacher.
- The term 'teacher' refers to both school-based administrators and teachers.

 - 1.6 Teachers can expect they will serve students in a variety of school communities throughout their careers.
2. Considerations when making teacher transfers include the following:
 - 2.1 Career goals and professional growth opportunities.
 - 2.2 Training and experience.
 - 2.3 Current residency and commuting distance.
 - 2.4 Personal circumstances.

 - 2.7 Staffing based on enrolment and /or projection.
 - 2.8 Length of service in the present school and assignment.
 - 2.9 Placement of teachers returning from leaves.
3. Discussions related to this Administrative Procedure may be held with the teacher, school administrator(s) and/or the superintendent responsible for human resources. 4. All teaching staff will be surveyed each school year as to their desired placement for the following school year.

5. Assignment of staff will be made by superintendent responsible for human resources according to the needs of the division.

DEFERRED SALARY LEAVE PLAN - TEACHERS

Background

The Division provides a deferred salary plan to allow teachers opportunity for self-renewal to benefit both the teacher and students.

Procedures

1. The Deferred Salary Leave Plan is a plan managed by the Division, in which a full time teacher with a minimum of five years experience with the Division can choose to defer a portion of his/her salary for four years. The deferred salary is then paid out monthly in the fifth year, while the teacher is on leave for 12 months. The amount of salary that has been deferred will not be included in the teacher's income in the year earned, but will be considered income in the year paid.
2. Should a discrepancy arise between the plan and the *Income Tax Act*, the Act will prevail.
3. Upon entering the plan, the teacher shall have the option of deferring 12%, 15% or 20% of net salary during the four years of employment prior to the leave of absence.

INTERNAL CONTROLS

Background

Audits which monitor and evaluate the internal controls of the school division shall be utilized by the Division.

Internal controls are processes, procedures and policies put in place by an organization to assist in accomplishing the goals and objectives of the organization. They are documented, monitored and measured to ensure they are working effectively. Internal controls prevent theft and fraud as well as assist in organizational effectiveness.

They are seen at all levels of the organization from a governance level (Refer to Board Policy 1) down to a transaction level (ensuring a payment is being made to an appropriate vendor or a transaction is being recorded to an appropriate general ledger code and budget).

A detailed understanding of the organization is obtained through documenting all systems, policies and processes at every level. Controls are identified, as well as any risks to the organization.

Definitions:

1. **“Audit”** – independent review of specified activities which is used to assist management in the assessment of whether the organization's plans are carried out; policies and procedures are observed; and assets, liabilities, revenues, and expenses are properly accounted for and reported on a timely basis. The review usually consists of analysis, recommendations and comments regarding the activities audited.
2. **“Internal Control”** - a process, effected by an entity's Board of Directors, management, and other personnel, designed to provide reasonable assurance regarding the achievement of objectives in the following categories: a) Effectiveness and efficiency of operations; b) Reliability of financial reporting; and c) Compliance with laws and regulations.
 - 2.1 Control Environment-sets the tone for the organization, influencing the control consciousness of its people. It is the foundation for all other components of internal control.
 - 2.2 Risk Assessment-the identification and analysis of relevant risks to the achievement of objectives, forming a basis for how the risks should be managed.
 - 2.3 Information and Communication-systems or processes that support the identification, capture, and exchange of information in a form and time frame that enables people to carry out their responsibilities.
 - 2.4 Control Activities-the policies and procedures that help ensure management directives are carried out.
 - 2.5 Monitoring-processes used to assess the quality of internal control performance over time.

Procedures

1. An individual or team of staff will be designated by the CFO with the ability to access and evaluate all school division records.
2. All staff will be required to cooperate with the Internal Control Team and their requests. In addition, School Community Committees and Student Council Representatives may be called upon to provide information and records.

3. Assessment of controls will also be performed through audits, which will include evaluation of a sample selection of data. The following will be evaluated during the audit:
 - 3.1 Review and appraise the soundness, adequacy, and application of accounting, financial and other operating controls;
 - 3.2 Review compliance with administrative procedures, Board policies, laws and regulations;
 - 3.3 Evaluate the timeliness, reliability, and usefulness of the school's records and reports;
 - 3.4 Ensure that Board assets are properly accounted for and safeguarded from loss;
 - 3.5 Comment on the extent to which use of resources is being made efficiently and effectively;
 - 3.6 Ensure the reliability and integrity of the information created by the Division; and,
 - 3.7 Review accomplishment of established Division goals.
4. Any risks identified will be reported to the CFO. Recommendations for corrective action will be made. The CFO will determine whether controls will be modified or added to improve the reliability of the information created by the school division.
5. The Internal Control Team will prepare a draft report for the CFO. The draft report will be informally discussed and will give those responsible the opportunity to identify any errors or omissions. The draft report will identify where procedures and controls are in place and are adequate and effective. Where such is not the case, the report will provide a description of any deficiency that exist.
6. Once the draft report has been considered a final report will be prepared by the CFO and submitted to the Director.
7. If corrective measures are implemented by Financial Services the internal control team will be responsible for follow-up review to determine the appropriate measures have been implemented and they are achieving the desired results. Where corrective measures have not been implemented it will be reported to the CFO who in consultation with the Director shall determine the next step of action.

ACCEPTABLE USE OF TECHNOLOGY FOR STUDENTS

Background

The development of technological skills by students should be encouraged and facilitated through the provision of access to a variety of resources.

The Division is committed to the belief that:

- Technological literacy enhances the development of the whole child.
- Equitable access to technological services for educational purposes is a high priority.
- The central purpose of providing computers is for the benefit of student learning.

The term “acceptable use” means that all users of technology agree to access resources in a manner that is consistent with adopted guidelines and protocols.

It is a reality that electronic access to information and networked services significantly increases the information available to students, including information sources that have not been screened in advance. Accordingly it is vital that students be made aware of Division guidelines and protocols on an annual basis.

This procedure is designed to balance the users’ ability to benefit fully from information technology with the need for secure and effectively allocated technological resources.

The Division reserves the right to restrict or deny access to any user who does not comply with Division guidelines and protocols. Independent access to network services is provided to users who agree to act in a considerate and responsible manner.

Procedures

1. Student awareness of Acceptable Use Protocols.
 - 1.1 All Grade 1 to Grade 12 students are to be made aware of Acceptable Use Technology Guidelines and Protocols on an annual basis.
2. Student Terms and Conditions of Acceptable Use.

Students and parents are to be made aware that:

 - 2.1 Student access to and use of the computer network is monitored and the network is provided for students to meet school related learning only.
 - 2.2 Any breach of the Acceptable Use Guidelines and Protocols by students may, while making allowances for academic penalty result in a temporary or permanent suspension of their computer privileges.
 - 2.3 Some material accessible via the Internet may contain information that is defamatory, inaccurate, illegal, or offensive to some people.
 - 2.4 Students will be instructed with respect to the appropriate and responsible use of computer based information resources. Sources of information judged unacceptable will be blocked.
 - 2.5 Classroom standards of behaviour are expected when students are utilizing computers. Independent access to network services is provided to users who act in a considerate and responsible manner.

- 2.6 Access to computers is a privilege not a right. Loss of this privilege is a natural consequence of abuse and may restrict a student's ability to participate in some courses or course activities.
 - 2.7 The Division reserves the right to review any material stored in files and will edit, report, or remove from its computer system any material which is deemed to be unlawful, abusive, or otherwise in conflict with the views and ethical standards held by the Division.
 - 2.8 Network administrators and teachers may review files and communications of students at any time to ensure that they are utilizing the system in an acceptable manner.
 - 2.9 As it is common to use computers in core curricular areas, parents who do not want their child to have access to computers must provide the school with written notice of their wishes.
3. Student Acceptable Use Guidelines
Students and parents are to be made aware of the following student pledge:
- 3.1 I will not allow another person to use or know my login (ID) and password.
 - 3.2 I will not intentionally seek to breach security of systems or material.
 - 3.3 I will immediately report any security breaches of which I become aware to a teacher.
 - 3.4 I will not send, intentionally receive, or look for material that is rude or offensive.

 - 3.13 I will not attempt to change or modify in any way the setup of any computer in my school.
 - 3.14 I will not make use of web-based email or chat on the school computers, except for educational purposes with the permission and supervision of a teacher.
 - 3.15 I will ensure that all of my removable media will be scanned by school personnel for viruses and content before being used at my school.

ELECTRONIC SIGNATURES

Background

Saskatchewan Rivers Public School Division wishes to promote effective and efficient use of electronic communications. Under certain conditions electronic records and signatures satisfy the requirements of a written signature when transacting business. Although all electronic signatures are represented digitally, they can take many forms and can be created using many different types of technology. The authenticity and reliability of electronic records and signatures relating to transactions are dependent on the accompanying processes, supplemental records and the overall context in which records are created, transferred, signed and stored. The Division adopts the following procedure with respect to the use of electronic records and signatures in connection with the transaction of Saskatchewan Rivers Public School Division.

Definitions

1. "Attribution" – An electronic record or electronic signature is attributable to a person if it was the act of the person. The act of the person may be shown in any manner, including a showing of the efficacy of any security procedure applied to determine the person to which the electronic record or electronic signature was attributable.
2. "Electronic Signature" – An electronic sound, symbol or process attached to or logically associated with a record and executed or adopted by a person with the intent to sign the record.
3. "Electronic Record" – any record created, generated, sent, communicated, received or stored by electronic means.

Procedures

1. Electronic Records:
Electronic records created or received by Saskatchewan Rivers Public School Division shall be appropriately attributed to the individual(s) responsible for their creation and/or authorization or approval. The Division shall utilize available technology to implement reliable methods for generating and managing electronic records. Any electronic record filed with or issued by the Division shall be given full force and effect of a paper communication if the following conditions are satisfied:
 - 1.1 The communication is an electronic filing or recording and the Division agrees to accept or send such communication electronically; and
 - 1.2 If a signature is required on the record or communication by any statute, rule or other applicable law or Division policy, the electronic signature must conform to the requirements set forth in this policy governing the use of electronic signatures.
2. Electronic signature
An electronic signature may be used if the law requires a signature unless there is a specific statute, regulation, or rule of law that requires records to be signed in non-electronic form. The issuance and/or acceptance of an electronic signature by the Saskatchewan Rivers Public School Division shall be permitted in accordance with the provisions of this policy and all applicable state and federal law. Such electronic

signature shall have the full force and effect of a manual signature only if the electronic signature satisfies all of the following requirements:

- 2.1 The electronic signature identifies the individual signing the document by his/her name and title;
 - 2.2 The identity of the individual signing with an electronic signature is capable of being validated through the use of an audit trail;
 - 2.3 The electronic signature and the document to which it is affixed cannot be altered once the electronic signature has been affixed;
 - 2.4 The electronic signature conforms to all other provisions of this procedure.
3. Acceptance, Use and Issuance of Electronic Records and Signatures:
- 3.1 Saskatchewan Rivers Public School Division shall develop and maintain an electronic recordkeeping system that can receive, store, and reproduce electronic records and signatures relating to transactions in their original form. Such system shall include security procedures whereby the Division can:
 - 3.1.1 Verify the attribution of a signature to a specific individual,
 - 3.1.2 Detect changes or errors in the information contained in a record submitted electronically,
 - 3.1.3 Protect and prevent access, alteration, manipulation or use by an unauthorized person, and
 - 3.1.4 Provide for nonrepudiation through strong and substantial evidence that will make it difficult for the signer to claim that the electronic representation is not valid.

EMAIL COMMUNICATION

Background

Saskatchewan Rivers Public School Division uses email as a primary vehicle for communication to schools and staff. Official methods of communication include, but are not limited to, emergency notifications, administrative procedure changes, website updates, staff dialogue, research, postings and general business correspondence.

Procedures

1. The Division establishes and assigns for each employee an official school division email address. All Division communications sent via email will use this address. The Division expects that employees will receive and read email sent to this address in a timely manner. Failure to receive and read email communications in a timely manner does not absolve employees from knowing and complying with the content of such communications.
2. The Division is not responsible for the handling of email by other service providers. Redirecting school division email to another email address does not absolve employees from knowing and complying with the content of the communication.
