Excellence for Every Learner

Board Highlights

October 16th, 2023

Celebration Acknowledgement: Recognizing Partners of the Feeding our Futures Program

The Board would like to celebrate and honor the outstanding commitment of Lake Country Co-op, Lakeland Ford, Lakeland Hyundai, Signature Group, Broda Group, and Conexus Credit Union for their generosity to the "Feeding our Futures Program" over the past seven years. These companies have collectively provided over 400,000 emergency lunches to the students of Prince Albert, demonstrating their remarkable dedication to addressing food insecurity in our community. Their contributions have not only filled empty stomachs but have also fostered a sense of support and unity within our Saskatchewan Rivers community.

The impact of this program goes beyond the meals served. It symbolizes the power of collaboration and community spirit. As the Board celebrates this milestone, they look forward to continuing to work together, and ensuring that every child in Prince Albert has access to the resources they need to thrive in their learning. The Board extends our deepest gratitude to our program partners for their exceptional contributions to the Feeding our Futures Program and their unwavering commitment to the well-being of our students.

Saskatchewan Rivers Students For Change Board Representative

The Board was pleased to welcome Charlie Lysyk the SRSC Board Representative to the meeting. Charlie delivered a report outlining the first full group meeting and the Executive orientation for the SRSC this year. She also was able to voice a student perspective on Board topics of debate, and ended the meeting inviting board members to follow the SRSC on their new instagram account. The Board extends their sincerest thanks to Charlie for representing the group so well.

École Vickers Public School Leadership Team Showcases Learning Improvement and Student Achievement

A delegation from École Vickers Public School made a presentation to bring the work of school improvement and increasing student achievement to life for the Board. Principal Jennie Green and Vice Principal Chelsie Bergen talked about the journey their school has been on over the past 4 year to develop effective practice in teaching mathematics and increase student achievement in the subject area. Using research based best practices and resources to support them their math classrooms have transformed using vertical surfaces and collaborative methods. Teachers have taken on the resource MathUP and the pedagogies around Building Thinking Classrooms to elevate their work and in turn bring student achievement from the 70th percentile into the 80th percentile and maintained this achievement for the last 3 years. Superintendent Jennifer Hingely thanked the team for bringing to life the work described in her accountability reports which were also presented to the Board in their regular meeting.
