

SRPSD Assessment Practices for Grades 10-12 Conversion Table

Rubric Descriptor	K-9 Rubric Level	10-12 Rubric Level	Understandings	Mid Value	% Range
Exemplary	EX	4+	<p>Student assignments get feedback and rubric levels only. The designation of HML is curriculum specific based. Mid values are assigned to final outcome levels in grade 10-12 classes for the purpose of calculating final percentage. Students and their caregivers should know the % range to estimate mark scholarships and post-secondary education entrance requirements.</p>	98	96-100
		4		93	91-95
		4-		88	86-90
Meeting	ME	3+		83	81-85
		3		78	76-80
		3-		73	71-75
Approaching	AP	2+		68	66-70
		2		63	61-65
		2-		58	56-60
Beginning	BE	1+		53	50-55
		1	46	43-49	
		1-	39	36-42	

Conversion Table Guidelines:

- The conversion table is applied only when a percentage mark is required (end of term for reporting purposes as required by the Ministry or as needed earlier for students applying for scholarships).
- You can pass a course without passing all of the outcomes.
- Summative results are used to determine the mark. If there is not enough summative information to determine levels of understanding, then formative results may be taken into consideration.
- Only the most recent outcome rubric score is used as a part of the conversion process as it will be the most up to date account of the student's achievement level reached for that particular outcome.
